SUPPLEMENT TO

The Calcutta Gazette.

Published by Authority.

WEDNESDAY, OCTOBER 15, 1834.

FORT WILLIAM,
FINANCIAL DEPARTMENT,
13TH OCTOBER, 1834.

1. Notice is hereby given, that the Sub-Treasurers at Fort William, Fort St. George, and Bombay, are severally authorized to receive from and after the 15th of this month any of the Six per Cent. Promissory Notes of this Government bearing date the 30th June 1822, that may be tendered for transfer into a new Loan to be opened under the conditions hereinafter stated; and to grant in exchange thereof Certificates or acknowledgements, entitling the Proprietors or their representatives to receive Promissory Notes of the Supreme Government in the form and manner specified below.

2. A Bonus or Premium of 5 per Cent. will be granted on all transfers made under this Advertisement; that is to say, for every Note surrendered for transfer, a new Note will be issued for a principal sum exceeding the principal sum of the Note surrendered, in the proportion of 105 for every 100 Sicca Rupees; and the Note so issued in Exchange, will bear Interest at the rate of 5 per Cent. per annum from the 31st December next ensuing, which will be its date. The Interest will be paid half yearly, on the 30th of June and 31st December of each year, in the manner herein-under provided.

3. Transfers into this Loan will be received until the 15th of February next, and not after that date; and the Proprietors of Notes that may be surrendered for transfer shall receive Interest thereon up to the 31st December next, at the rate of 6 per Cent. in the same manner as if the Notes had not been surrendered, and with a like privilege to Proprietors resident in Europe to receive the said Interest in Cash or by Bills at one year's date, and at the exchange of 2s. 1d. for the Sicca Rupee. From and after the said 31st December next Interest will be paid as may be stipulated in the new Notes to be given in exchange, and all demand on account of the Notes surrendered shall cease.

4. The Notes of the 6 per Cent. Loan of 30th June 1822, that were advertised for payment on the 9th May last, viz. No. 1 to No. 887, will be received for transfer in like manner with those now or hereafter advertised, and whether tendered before or after the 31st December next, the calculation for adjustment of Interest shall be the same; that is to say, at the rate of 6 per Cent. on the principal sum of the Note to the 31st December next, and from that date at Five per Cent. on the principal sum of the new Note given in exchange, as will be stipulated therein.

5. Promissory Notes of the new Five per Cent. Transfer Loan opened by this Advertisement, will be registered and numbered in the order of the applications made for Promissory Notes in exchange for the Sub-Treasurer's Certificates; that is to say, in the order in which the Notices thereof

may be received in the Office of the Accountant General at Calcutta. The accounts of this Loan will be closed on the 15th February next; and whenever it shall be paid off as provided below, if the whole Loan be not at once advertised for payment, but only part thereof, the numbers selected for first payment shall be those last on the register.

6. For the convenience of Proprietors of Notes of the 5 per Cent. Transfer Loan who may be resident in Europe, the Honorable the Court of Directors have made arrangements, whereof they have given public notice in England, to provide that Notes of this Loan shall, at the option of such Proprietors, be registered in the Auditor's Office at the East India House in London, so as to allow of their being sold in England without previous reference and the employment of Agents to effect the transfer in India. When Notes may be so registered at the India House, the Interest payable thereon will be issued in England only, at the periods when the Bills for the same would become due, supposing the Interest payable in India by the terms of the Notes to have been taken in Bills.

7. It is hereby declared and stipulated, that no part of the Transfer 5 per Cent. Loan opened by this Advertisement, shall be paid off before the 22d April 1854; and whenever it shall be redeemed, a previous notice of fifteen months shall be given by public Advertisement, the period of which shall expire on some date subsequent to that above stated, and not prior thereto. When payment shall be made of the whole or of any part of the Notes of this Loan, it shall be at the option of Proprietors to receive the principal sums due on their Notes respectively, either in Cash at the General Treasury of Calcutta, or in Bills to be drawn in India on the Honorable the Court of Directors of the East India Company, payable at 12 months date, and at an exchange of 2s. 1d. for the Sicca Rupee; the Court of Directors having the option, when the Bills shall fall due, of postponing payment thereof for one, two or three years, paying Interest at the rate of five per Cent. per Annum for the period of such postponement. The notice of Payment duly advertised as above and published in the Government Gazette of Calcutta, shall be considered as equivalent to a tender of Payment on the date advertised for discharge, and all Interest will cease from that day.

8. The Interest of the Promissory Notes of the 5 per Cent. Transfer Loan will be paid in cash to Proprietors resident in India. But Proprietors resident in Europe may take the Interest at their option in Cash, or in Bills of one year's date to be drawn on the Honorable Court of Directors at the Exchange of 2s. 1d. (Two Shillings and One Penny) for the Sicca Rupee.

9. Proprietors residing within the Presidencies of Fort St. George and Bombay, shall be entitled to receive Interest at the exchange of One Hundred

and Six and a Half Madras or Bombay Rupees, for One Hundred Calcutta Sica Rupees, from the General Treasuries of those Presidencies respectively, but before the Interest of any Note shall become payable at either of those Presidencies, Notice shall be given to the Accountant General of the Bengal Presidency and the Notes shall be brought and transmitted to that Officer, that the order for payment may be inscribed on the face of the Note after which the Interest shall be payable only at the Treasury mentioned in the order, but if it be desired to charge the Treasury of Payment, application may be made to the Accountant General of the Presidency where it may be payable, and the order may by him be cancelled.

10. The Accountant General of Bengal may, on the application of Proprietors, and for their convenience, make the Interest on Notes of this Loan payable at any other Treasuries of India under this Presidency by a similar order, but Proprietors shall not be entitled to claim this accommodation if the Accountant General should think proper to refuse it.

11. Notes of this Loan may be consolidated and divided in the usual manner, but if consolidated, they shall be so on the highest number.

12. The Certificates to be granted by the Sub-Treasurers of Bengal, Madras and Bombay upon surrender of Notes of the 6 per Cent Loan of the 30th June 1822 for transfer to the 5 per Cent Transfer Loan, shall be in the following form.

CERTIFICATE OF TRANSFER

I do hereby acknowledge that A. B. has this day by transfer of Note, No. of the 6 per Cent Remittable Loan of 30th June 1822, for the principal sum of Calcutta Sica Rupees paid into the

(Here enter a sum equal to the said Principal plus 5 per Cent.) East India Company's Treasury the sum of Calcutta Sica Rupees being 5 per Cent. in excess of the said principal sum, and the same will be accounted for to him as follows.

For the principal sum of the Promissory Note surrendered as above, he will receive Interest at the rate of 6 per Cent. per Annum to the 31st December 1834, according to the terms and conditions thereof, and in exchange for this acknowledgment he will receive from the Accountant General of the Bengal Presidency a Promissory Note for the sum of Calcutta Sica Rupees dated 31st December 1834, and bearing Interest at 5 per Cent. per annum, payable half yearly, according to the Conditions of the Advertisement issued by Government on the 13th of October last past.

(Date) C. D. Sub-Treasurer.

Published by Authority.

It is requested that Government Notifications for the Calcutta Gazette, of any length, may be sent to the Press before Noon of Friday, and those of a few lines only before 5 P. M. of that day.

SATURDAY, OCTOBER 18, 1834.

FORT WILLIAM. FINANCIAL DEPARTMENT, 13TH OCTOBER, 1834.

1. Notice is hereby given, that the Sub-Treasurers at Fort William, Fort St. George, and Bombay, are severally authorized to receive from and after the 15th of this month any of the Six per Cent. Promissory Notes of this Government bearing date the 30th June 1822, that may be tendered for transfer into a new Loan to be opened under the conditions hereinafter stated, and to grant in exchange thereof Certificates or acknowledgements, entitling the Proprietors or their representatives to receive Promissory Notes of the Supreme Government in the form and manner specified below.

2. A Bonus or Premium of 5 per Cent. will be granted on all transfers made under this Advertisement; that is to say, for every Note surrendered for transfer, a new Note will be issued for a principal sum exceeding the principal sum of the Note surrendered, in the proportion of 105 for every 100 Sicca Rupees; and the Note so issued in Exchange, will bear Interest at the rate of 5 per Cent. per annum from the 31st December next ensuing, which will be its date. The Interest will be paid half yearly, on the 30th of June and 31st December of each year, in the manner herein-under provided.

3. Transfers into this Loan will be received until the 15th of February next, and not after that date; and the Proprietors of Notes that may be surrendered for transfer shall receive Interest thereon up to the 31st December next, at the rate of 6 per Cent. in the same manner as if the Notes had not been surrendered, and with a like privilege to Proprietors resident in Europe to receive the said Interest in Cash or by Bills at one year's date, and at the exchange of 2s. 12. for the Sicca Rupee. From and after the said 31st December next Interest will be paid as may be stipulated in the new Notes to be given in exchange, and all demand on account of the Notes surrendered shall cease.

4. The Notes of the 6 per Cent. Loan of 30th June 1822, that were advertised for payment on the 9th May last, viz. No. 1 to No. 887, will be received for transfer in like manner with those now or hereafter advertised, and whether tendered before or after the 31st December next, the calculation for adjustment of Interest shall be the same; that is to say, at the rate of 6 per Cent. on the principal sum of the Note to the 31st December next, and from that date at Five per Cent. on the principal sum of the new Note given in exchange, as will be stipulated therein.

5. Promissory Notes of the new Five per Cent. Transfer Loan opened by this Advertisement, will be registered and numbered in the order of the applications made for Promissory Notes in exchange for the Sub-Treasurers' Certificates; that is to say, in the order in which the Notice thereof

may be received in the Office of the Accountant General at Calcutta. The accounts of this Loan will be closed on the 15th February next; and whenever it shall be paid off as provided below, if the whole Loan be not at once advertised for payment, but only part thereof, the numbers selected for first payment shall be those last on the register.

6. For the convenience of Proprietors of Notes of the 5 per Cent. Transfer Loan who may be resident in Europe, the Honorable the Court of Directors have made arrangements, whereof they have given public notice in England, to provide that Notes of this Loan shall, at the option of such Proprietors, be registered in the Auditor's Office at the East India House in London, so as to allow of their being sold in England without previous reference and the employment of Agents to effect the transfer in India. When Notes may be so registered at the India House, the Interest payable thereon will be issued in England only, at the periods when the Bills for the same would become due, supposing the Interest payable in India by the terms of the Notes to have been taken in Bills.

7. It is hereby declared and stipulated, that no part of the Transfer 5 per Cent. Loan opened by this Advertisement, shall be paid off before the 22d April 1854; and whenever it shall be redeemed, a previous notice of fifteen months shall be given by public Advertisement, the period of which shall expire on some date subsequent to that above stated, and not prior thereto. When payment shall be made of the whole or of any part of the Notes of this Loan, it shall be at the option of Proprietors to receive the principal sums due on their Notes respectively, either in Cash at the General Treasury of Calcutta or in Bills to be drawn in India on the Honorable the Court of Directors of the East India Company, payable at 12 months date, and at an exchange of 2s. 12. for the Sicca Rupee; the Court of Directors having the option, when the Bills shall fall due, of postponing payment thereof for one, two or three years, paying Interest at the rate of five per Cent. per Annum for the period of such postponement. The notice of Payment duly advertised as above and published in the Government Gazette of Calcutta, shall be considered as equivalent to a tender of Payment on the date advertised for discharge, and all Interest will cease from that day.

8. The Interest of the Promissory Notes of the 5 per Cent. Transfer Loan will be paid in cash to Proprietors resident in India. But Proprietors resident in Europe may take the Interest at their option in Cash, or in Bills of one year's date to be drawn on the Hon'ble Court of Directors at the Exchange of 2s. 12. (Two Shillings and One Penny) for the Sicca Rupee.

9. Proprietors residing within the Presidencies of Fort St. George and Bombay, shall be entitled to receive Interest at the exchange of One Hundred

and Six and a Half Madras or Bombay Rupees, for One Hundred Calcutta Sica Rupees, from the General Treasuries of those Presidencies respectively, but the Interest of any Note shall become payable at either of those Presidencies. Notice shall be given to the Accountant General of the Bengal Presidency, and the Notes shall be brought or transmitted to that Officer, that the order for such payment may be inscribed on the face of the Note, for which the Interest shall be payable only at the Treasury mentioned in the order, but if it be desired to change the Treasury of Payment, application may be made to the Accountant General of the Presidency where it may be payable, and the order may by him be cancelled.

10. The Accountant General of Bengal may, on the application of Proprietors, and for their convenience, make the Interest on Notes of this Loan payable at any other Treasuries of Issue under this Presidency by a similar order, but Proprietors shall not be entitled to claim this accommodation if the Accountant General should think proper to refuse it.

11. Notes of this Loan may be consolidated and divided in the usual manner, but if consolidated, they shall be so on the highest number.

12. The Certificates to be granted by the Sub-Treasurers of Bengal, Madras, and Bombay, upon surrender of Notes of the 6 per Cent Loan of the 30th June 1822, for transfer into the 5 per Cent Transfer Loan, shall be in the following form.

CERTIFICATE OF TRANSFER

I do hereby acknowledge that A. B. has this day by transfer of Note No. of the 6 per Cent Remittable Loan of 30th June 1822, for the principal sum of Calcutta Sica Rupees paid into the East India Company's Treasury the sum of Calcutta Sica Rupees being 5 per Cent in excess of the said principal sum, and the same will be accounted for to him as follows. For the principal sum of the Promissory Note surrendered as above, he will receive Interest at the rate of 6 per Cent per Annum to the 31st December 1834, according to the terms and conditions thereof, and in exchange for this acknowledgment he will receive from the Accountant General of the Bengal Presidency a Promissory Note for the sum of Calcutta Sica Rupees dated 31st December 1834, and bearing Interest at 5 per Cent per annum, payable half yearly, according to the Conditions of the Advertisement issued by Government on the 13th of October last past.

(Date) C. D. Sub-Treasurer

13. The Promissory Notes to be granted in exchange for the above Certificates shall be issued under the signature of the Secretary to the Governor General of India in Council in the Financial Department, and shall be in the following form.

FORT WILLIAM, 31st December, 1834.

Five Per Cent. Transfer Loan Promissory Note for Calcutta Sica Rupees

The Governor General of India in Council does hereby acknowledge to have received the sum of Calcutta Sica Rupees as a Loan to the East India Company, and does hereby engage that the said Loan shall not be paid off before the 22d April 1854, nor without notice of 15 months to that effect to be inserted in the Government Gazette of Calcutta. When payable, this Note shall be discharged by paying the said sum of Calcutta Sica Rupees to the said or to his Executors, or Administrators, or to his or their order, on demand at the General Treasury at Calcutta, and not elsewhere, either in Cash or by Bills of Exchange, at the option of the Proprietors, to be drawn on the Hon'ble the Court of Directors of the East India Company at the exchange of 2s. 1d. for the Sica Rupee, payable 12 months after date, with liberty for the said Court to postpone the payment of the said Bills of Exchange for the farther period of one, two, or three years, paying Interest at 5 per Cent. for such postponed time. And the Governor General of India in Council does promise to pay the Interest accruing on the said sum of Calcutta Sica Rupees at the rate of 5 per Cent. per annum, by half yearly payments in cash only if the Proprietor be resident in India, on the 30th June and 31st December in

each year, and if the Interest be taken at Madras or Bombay, to pay it at the exchange of 106½ of the Rupees of those Presidencies for 100 Calcutta Sica Rupees. If the Proprietor of this Note be resident in Europe, the Interest shall be payable at his option in Cash or by Bills on the Hon'ble the Court of Directors at the rate of Two Shillings and One Penny for the Calcutta Sica Rupee, payable Twelve months after date.

By Order of the Governor General of India in Council,

E. F., Secretary.

14. The Promissory Notes will be delivered to the Holders of Certificates in exchange for the same by the Accountants General at Calcutta, Madras, and Bombay respectively, free of all expense whatsoever to the Proprietors, and the holders thereof shall, at the time of delivering in their Certificates, receive in full the Interest that may be due thereon to the 31st December, 1834, if any shall remain due or be unadjusted at the time of delivery.

GENERAL POST OFFICE NOTIFICATION.

NUMEROUS instances having occurred in which the indulgence granted to the Senders of "Law Papers," "Accounts and Vouchers" and "Pamphlets" and "Printed Papers" at a rate of Postage equal to only One-third of Letter Postage, has been grossly abused, the Honorable the Vice President in Council has directed that henceforth the following Rules and Penalties shall be put in force in the place of the Rules now existing under these heads, and notice is accordingly given that they will be strictly enforced from the 1st proximo:

In order that all persons marking their papers with the words "Law Papers," "Accounts," "Vouchers," "Pamphlets," &c. with the view of passing them through the Post Office at the rates of Postage provided for such despatches, may be fully aware of the extent of their liabilities under these Rules,—Notice is hereby given, that any Letter, Note or Writing whatever, except the "Law Papers," "Accounts and Vouchers," &c. themselves, being enclosed in a cover so marked, will bring the Sender or Receiver, as the case may be, under the influence of these Rules, and in like manner any manuscript whatever or any other thing which may be enclosed in a Packet marked Pamphlet, Printed Papers, Newspapers, &c. or in any Packet delivered as such and at the Postage rates prescribed for such despatches, whether marked or not, will render the Sender or Receiver, as the case may be, liable to the Penalties.

Rule. "Law Papers, Accounts and Vouchers, super-scribed and attested by the full signature of the Party sending them as being such, are received, for transmission by Dak, at the rate of Three Sicca Weight as one, i.e. any weight not exceeding Three Sicca Weight, at Single Letter Postage. For any weight above Three Sicca Weight, One-third of the Postage to be charged that would be leviable on a Letter of the same weight."

"Law Papers, Accounts, and Vouchers can only be transmitted by Dak when not exceeding Twenty-one Sicca Weight"

"Should covers said to contain the above mentioned description of Documents, be found to contain Letters, they will be charged with ten times Full Letter Postage agreeably to the weight of the Packet, and the Packet will be retained by the Deputy Post Master until the Postage be paid; moreover all Letters arriving at the Post Office for the Sender will be liable to be detained until the Postage under the Penalty, be liquidated."

"In cases where suspicion attaches to such covers, but where it cannot be satisfactorily ascertained that they actually do contain Letters, the Deputy Post Master at the despatching Office will note his suspicions on the outside of the envelope for the information of the Deputy Post Master at the Station for which the Packet is destined, who is empowered in such case to call upon the receiving party to attend either in person or by proxy, to open them in his presence, when, in the event of Letters being found within the cover, he will detain the Packet and its contents until the difference between the amount which may have been paid at the time of despatch, as for Law Papers, &c. only, and that to which under the Penalty, they would then be liable to, is adjusted. This applies equally should the suspicion originate with the Deputy Post Master at the Post Office of the Station where the Letter is to be delivered."

"Any thing in manuscript beyond the address on the cover of a Newspaper or other Printed Paper, will subject the parties concerned to the same Penalty and Conditions as those provided in the case of covers superscribed as containing Law Papers."

"Printed or Lithographed Circular Letters are liable to Full Letter Postage."

GENERAL POST OFFICE NOTIFICATION.

NUMEROUS instances having occurred in which the indulgence granted to the Senders of "Law Papers," "Accounts and Vouchers" and "Pamphlets" and "Printed Papers" at a rate of Postage equal to only One-third of Letter Postage, has been grossly abused, the Honorable the Vice President in Council has directed that henceforth the following Rules and Penalties shall be put in force in the place of the Rules now existing under these heads, and notice is accordingly given that they will be strictly enforced from the 1st proximo:

In order that all persons marking their papers with the words "Law Papers," "Accounts," "Vouchers," "Pamphlets," &c. with the view of passing them through the Post Office at the rates of Postage provided for such despatches, may be fully aware of the extent of their liabilities under these Rules,—Notice is hereby given, that any Letter, Note or Writing whatever, except the "Law Papers," "Accounts and Vouchers," &c. themselves, being enclosed in a cover so marked, will bring the Sender or Receiver, as the case may be, under the influence of these Rules, and in like manner any manuscript whatever or any other thing which may be enclosed in a Packet marked Pamphlet, Printed Papers, Newspapers, &c. or in any Packet delivered as such and at the Postage rates prescribed for such despatches, whether marked or not, will render the Sender or Receiver, as the case may be, liable to the Penalties.

Rule. "Law Papers, Accounts and Vouchers, superscribed and attested by the full signature of the Party sending them as being such, are received, for transmission by Dak, at the rate of Three Sicca Weight as one, i. e. any weight not exceeding Three Sicca Weight, at Single Letter Postage. For any weight above Three Sicca Weight, One-third of the Postage to be charged that would be leviable on a Letter of the same weight."

"Law Papers, Accounts, and Vouchers can only be transmitted by Dak when not exceeding Twenty-one Sicca Weight."

"Should covers said to contain the above mentioned description of Documents, be found to contain Letters, they will be charged with ten times Full Letter Postage agreeably to the weight of the Packet, and the Packet will be retained by the Deputy Post Master until the Postage be paid; moreover all Letters arriving at the Post Office for the Sender will be liable to be detained until the Postage under the Penalty, be liquidated."

"In cases where suspicion attaches to such covers, but where it cannot be satisfactorily ascertained that they actually do contain Letters, the Deputy Post Master at the despatching Office will note his suspicions on the outside of the envelope for the information of the Deputy Post Master at the Station for which the Packet is destined, who is empowered in such case to call upon the receiving party to attend either in person or by proxy, to open them in his presence, when, in the event of Letters being found within the cover, he will detain the Packet and its contents until the difference between the amount which may have been paid at the time of despatch, as for Law Papers, &c. only, and that to which under the Penalty, they would then be liable to, is adjusted. This applies equally should the suspicion originate with the Deputy Post Master at the Post Office of the Station where the Letter is to be delivered."

"Any thing in manuscript beyond the address on the cover of a Newspaper or other Printed Paper, will subject

"the parties concerned to the same Penalty and Conditions as those provided in the case of covers superscribed as containing Law Papers."
"Printed or Lithographed Circular Letters are liable to Full Letter Postage."

GENERAL ORDERS BY THE HONORABLE THE VICE PRESIDENT IN COUNCIL.

FORT WILLIAM, 27th October, 1834.

No. 200 of 1834.—Major Honeywood is directed to take charge of the Presidency Pay Office, during the illness of Captain Higginson.

J. STUART, *Depy. Secy. to Govt. Mil. Dept.*

GENERAL POST OFFICE NOTIFICATION.

NUMEROUS instances having occurred in which the indulgence granted to the Senders of "Law Papers," "Accounts and Vouchers" and "Pamphlets" and "Printed Papers" at a rate of Postage equal to only One-third of Letter Postage, has been grossly abused, the Honorable the Vice President in Council has directed that henceforth the following Rules and Penalties shall be put in force in the place of the Rules now existing under these heads, and notice is accordingly given that they will be strictly enforced from the 1st proximo:

In order that all persons marking their papers with the words "Law Papers," "Accounts," "Vouchers," "Pamphlets," &c. with the view of passing them through the Post Office at the rates of Postage provided for such despatches, may be fully aware of the extent of their liabilities under these Rules,—Notice is hereby given, that

any Letter, Note or Writing whatever, except the "Law Papers," "Accounts and Vouchers," &c. themselves, being enclosed in a cover so marked, will bring the Sender or Receiver, as the case may be, under the influence of these Rules, and in like manner any manuscript whatever or any other thing which may be enclosed in a Packet marked Pamphlet, Printed Papers, Newspapers, &c. or in any Packet delivered as such and at the Postage rates prescribed for such despatches, whether marked or not, will render the Sender or Receiver, as the case may be, liable to the Penalties.

Rule. "Law Papers, Accounts and Vouchers, superscribed and attested by the full signature of the Party sending them as being such, are received, for transmission by Dak, at the rate of Three Sicca Weight as one, i. e. any weight not exceeding Three Sicca Weight, at Single Letter Postage. For any weight above Three Sicca Weight, One-third of the Postage to be charged that would be leviable on a Letter of the same weight."

"Law Papers, Accounts, and Vouchers can only be transmitted by Dak when not exceeding Twenty-one Sicca Weight"

"Should covers said to contain the above mentioned description of Documents, be found to contain Letters, they will be charged with ten times Full Letter Postage agreeably to the weight of the Packet, and the Packet will be retained by the Deputy Post Master until the Postage be paid; moreover all Letters arriving at the Post Office for the Sender will be liable to be detained until the Postage under the Penalty, be liquidated."

"In cases where suspicion attaches to such covers, but where it cannot be satisfactorily ascertained that they actually do contain Letters, the Deputy Post Master at the despatching Office will note his suspicions on the outside of the envelope for the information of the Deputy Post Master at the Station for which the Packet is destined, who is empowered in such case to call upon the receiving party to attend either in person or by proxy, to open them in his presence, when, in the event of Letters being found within the cover, he will detain the Packet and its contents until the difference between the amount which may have been paid at the time of despatch, as for Law Papers, &c. only, and that to which under the Penalty, they would then be liable to, is adjusted. This applies equally should the suspicion originate with the Deputy Post Master at the Post Office of the Station where the Letter is to be delivered"

"Any thing in manuscript beyond the address on the cover of a Newspaper or other Printed Paper, will subject the parties concerned to the same Penalty and Conditions as those provided in the case of covers superscribed as containing Law Papers."

"Printed or Lithographed Circular Letters are liable to Full Letter Postage."

Description of the North East Coast of Australia.

By Capt. P. P. King, R. N., F. R. S.

1. Lady Elliot Island is a low Islet, covered with shrubs and trees, and surrounded by a coral reef, which extends for three quarters of a mile from its north-east end; the island is not more than three quarters of a mile long, and about a quarter of a mile broad; it is dangerous to approach at night, from being very low. It is situated thirty miles N. 53° W. (mag.) from the extremity of Breaksea Spit, (as laid down in Captain Flinder's Chart; its latitude is 24° 6', and its longitude 152° 45' 15".

2. Bunker Group consists of three Islets; they are low and wooded like Lady Elliot Island, and lie S. E. and N. W. from each other; the south-eastermost (or first) has a Coral Reef projecting for two miles and a half to the N. E., four miles and

a half to the N. W. of the north-westernmost (or third Islet) is a large shoal, which, from the heavy breakers upon it, is probably a part of the barrier or outer Reefs. The centre island (or second) of the Group, is in latitude 23° 51' 10", and longitude 152° 19' 5". Off the southwest end of the second island is a small detached Islet, connected to it by a Reef; and of the north-east end of the third island is another Islet, upon a coral reef.

The spaces between these islands, which are more than a league wide, are quite free from danger; we passed within a quarter of a mile of the south end of the reef off the third island, without getting bottom within ten fathoms.

3. Rodd Bay, a small harbour on the west side of the point to the northward of Bustard Bay, offers a good shelter for vessels of one hundred and fifty tons burden. The channel lies between two sandbanks, which communicate with either shore. In hauling round the point, steer for Middle Head, a projecting rocky point, covered with trees, keeping the centre of it in the bearing of about south (mag.); you will then carry first five, then six and seven fathoms; when you are abreast of the north low Sandy Point, you have passed the sand-bank on the eastern side, the extremity of which bears from the point W. ¼ N. about one mile, then haul in E. by S. and anchor at about one-third of a mile from the low Sandy Point bearing north.

In hauling round this point, you must not shoalen your water on the south side to less than four fathoms, as the sand-bank projects for a mile and a quarter from Middle Head. In the centre of the channel, between Sandy Point and Middle Head, and at about one-third of a mile from the former, you will have seven, eight, and nine fathoms water, until it bears N. by E. when it shoals to five fathoms. The situation of the extremity of the low Sandy Point upon Captain Flinder's Chart (East Coast, sheet 111.) is in latitude 23° 59' 45", and longitude 151° 34' 45". High-water takes place at eight hours and a half after the moon's transit.

In standing into Rodd Bay, the water does not shoalen until you are in a line with the north points of Facing Island and Bustard Bay.

There is a run of fresh water in the bay to the eastward of the low Sandy Point, but it was not thought to be a durable stream. Wood may be cut close to the beach, and embarked without impediment.

4. Port Bowen, Captain Flinder's in his account of this port, has merely confined himself to the anchorage under Entrance Island, (lat. 22° 29' long. 150° 45' 30"), which is, at best, but an

exposed roadstead. The channel in, on the north side of the island, is free from danger; but, on the south side, between it and Cape Clinton, there is an extensive shoal on which the sea breaks heavily; it was not ascertained whether it be connected with the bank off the south end of the island, but there is every probability of it. The inlet round Cape Clinton affords good anchorage; but, in the mid channel the depth is as much as eighteen fathoms; the sands on the western side of the inlet are steep to, and should be avoided, for the tide sweeps toward them. The best anchorage is in the sandy bay round the inner trend of the Cape, (latitude $22^{\circ} 31' 40''$, longitude $150^{\circ} 41'$) where both wood and water are convenient. In steering it from sea, haul round the Cape, and pass about half to three quarters of a mile to the north of the high round Island, in seven fathoms, avoiding the sand banks on either side. In passing the inner trend of the Cape, the water will shoal to three and three quarter fathoms, but do not approach too near the point. When you have opened the inlet, steer in; and, having passed the inner Cape, haul in to a sandy bay on the eastern side, where you may anchor in eight or nine fathoms at pleasure.

The centre of the shoal in the middle of the port bears N. $\frac{1}{4}$ E. by compass, from the high round Island, and N. by W. $\frac{1}{4}$ W. when in a line with Entrance Island.

High-water appears to take place half an hour later than at Entrance Island, or about 10 h. 40 m. after the moon's southing, (the moon's age being thirteen days.) The tide did not rise more than six feet, but it wanted three days to the springs. Captain Flinders supposes the spring tides to rise not less than fifteen feet. The variation of the compass off Cape Clinton was $9^{\circ} 5'$ east, but at Entrance Island, according to Captain Flinders, it was $7^{\circ} 40'$ east.

5. Northumberland Islands. In the direction of N. 8° E. (magnetic,) and five miles and a half from the third island, is a low rock, which, at high-water, is very little above the surface of the sea; it is very dangerous, because it lies in the direct track of vessels steering towards the Percy Isles. It escaped the observation of Captain Flinders.

In the direction of S. 42° W. (magnetic,) and ten miles from the west end of Percy Island, No. 1, are some rocks, but I am not aware whether they are covered; they were seen by Lieutenant Jeffries in 1815.

Another patch of dry rocks was seen by me from the summit of a hill at the west end of Percy Island, No. 1, whence they bore S. 60° W., (magnetic,) and were supposed to be distant out eight or nine miles. The variation of the compass here is between 7° and 8° east.

6. The Percy Isles have also been described by Captain Flinders; the bay at the west end of No. 1 is of very steep approach, and not safe to anchor in, excepting during a south-east wind. The anchorage at No. 2, inside the Pine Islets, is bad, since the bottom is rocky; the ground is, however, clearer more to the southward; and, on the whole, this anchorage is not insecure, since there is a safe passage out either on the north or south sides of the Pine Islets. Wood may be procured with facility, and water also, unless the streams fail in the dry season. Captain Flinders was at these islands in the latter end of September, and found it abundant. The flood tide comes from the north-east; at the anchorage in the channel, between the Pine Islets and No. 2, the flood sets to the south, and the ebb to the north; the maximum rate was one and a quarter knot. High-water occurred at the latter place two hours and a half before the moon's passage; but on the following day did not precede it more than one hour and a half. Captain Flinders mentions high-water taking place on shore at eight hours after the moon's passage, (vide Flinders, vol. ii. p. 92.) The tide rose twelve feet, when the moon was

thirteen days old. The north-west end of No. 1, is in lat. $21^{\circ} 44' 50''$, long. $150^{\circ} 16' 40''$; the south-west end of No. 2 is in lat. $21^{\circ} 40' 50''$, long. $150^{\circ} 13'$.

7. In passing Shoal Point, in lat. $21^{\circ} 0' 5''$ long. $149^{\circ} 7' 40''$, Captain Cook's ship got into shoal water, and at one time had as little as three fathoms (Hawkesworth, vol. iii. p. 131;) and the merchant ship *Lady Elliot* in the year 1815, met with a sand bank extending from the island off the point in a north-east direction for ten miles, on one part of which she found only nine feet water.

The *Mermoid* passed the point at the distance of three miles, and when the island bore S. 68° W., distant two miles and a half, had four and three quarter fathoms, which was the least water that was found; but, it being then high water, five or six feet, if not more, may be deducted, to reduce it to the proper low water sounding. There was no appearance of shoaler water near us, and it is probable that Captain Cook's and the *Lady Elliot's* tracks were farther off shore. The variation of the compass, six miles east of Point Slade, was $7^{\circ} 11'$ east.

8. Cape Hilaborough is a projection terminating in a bluff point in lat. $20^{\circ} 53' 40''$, and long. $149^{\circ} 0' 15''$; being high land, it may be seen seven or eight leagues off. The variation here is $6^{\circ} 30'$ E.

9. The Cumberland Isles extend between the parallels of 20° and $21^{\circ} 6'$, and consist generally of elevated, rocky islands; they are all abundantly wooded, particularly with pines, which grow to a larger size than at the Percy Isles. We did not land upon any of them; they appeared to be of bold approach, and not dangerous to navigate amongst; they are from six to eight hundred feet high; some of the peaks on the northern island are much higher.

k 1 (latitude $21^{\circ} 5' 40''$, longitude $149^{\circ} 54' 25''$) is about three quarters of a mile in diameter: it is of peaked shape; at three quarters of a mile off its south-east end there is a dry rocky lump.

k (latitude $21^{\circ} 0'$, longitude $149^{\circ} 52' 30''$) is nearly a mile and a quarter in diameter, and has a considerable reef stretching for more than a mile and a half off both its north-west and south-east ends; on the latter is a small rocky Islet.

k 2 (in latitude $20^{\circ} 58'$, longitude $149^{\circ} 41' 55''$) is of hummocky shape; it has also a reef off its south-east and north-west ends, stretching off at least a mile. On the south-east reef is a dry rocky Islet.

10. Three Rocks, in latitude $20^{\circ} 56\frac{1}{2}'$, are small Islets of moderate height. All these islands are surrounded by deep water. The variation here is about $6\frac{1}{2}^{\circ}$ east.

k 4, in latitude $20^{\circ} 53' 10''$, and *k* 4 $\frac{1}{2}$, in latitude $20^{\circ} 58'$, and the two sandy Islets to the westward of them, were seen only at a distance.

l, in latitude $20^{\circ} 51' 10''$; *l* 1, in latitude $20^{\circ} 54' 10''$, containing two islands; *l* 3, in latitude $20^{\circ} 44' 15''$; and *l* 4, in latitude $20^{\circ} 45' 30''$, are also high, but we were not nearer to them than six or seven miles; *l* 2, in latitude $20^{\circ} 45' 40''$, longitude $149^{\circ} 33' 55''$, is the island on which Captain Flinders landed, and describes in vol. ii. p. 94; he says, "This little island is of triangular shape, and each side of it is a mile long; it is surrounded by a coral reef. The time of high-water took place one hour before the moon's passage, as it had done among the barrier reefs; from ten to fifteen feet seemed to be the rise by the shore, and the flood came from the northward." The variation near *l* 2 is $6^{\circ} 17'$ E.

m is a high, bluff island, the peaked summit of which, in latitude $20^{\circ} 40' 35''$, and longitude $149^{\circ} 15' 15''$, is eight hundred and seventy four feet high; there are several Islets off its south-east end, and one off its north-west end.

11. Sir James Smith Group consists of ten or twelve distinct islands, and perhaps as many more, for we were not within twelve miles of them. On the principal island is Liane Peak, in latitude

20° 40' 30", and long. 149° 0' 10"; it is seven or eight hundred feet high.

12. Shaw Peak, in latitude 20° 28', longitude 149° 2' 55", is on a larger island than any to the southward; it is sixteen hundred feet high. The group consists of several islands; it is separated from the next to the northward by a channel five miles wide. In the centre is Penticost Island, a remarkable rock, rising abruptly out of the sea to the height of eleven hundred and forty feet. Its latitude is 20° 23' 10", and longitude 148° 59' 30".

The northern group of the Cumberland Islands are high, and appear to be better furnished with wood, and more fertile than the southern groups, particularly on their western sides.

The principal peak, in latitude 29° 15' 10", and longitude 148° 55', is fifteen hundred and eighty-four feet high, and is situated on the largest island, which is ten miles long, and from three to nine broad; it has several bays on either side, and off its south-eastern end are four small islands; beyond them is a range of rocky islets. The northernmost island of this range is the extremity of the Cumberland Islands, as well as the north-eastern limit of Whitsunday Passage; it forms a high, bluff point, in latitude 20° 0', and long. 148° 50' 30", and is of bold approach; on the western side of the island are some low islets.

13. Repulse Bay is a deep bight; its shores are low, but the hills rise to a great height. The extremity of the bay was not distinctly traced, but it is probable, upon examining it, that a fresh water rivulet might be found; and also a communication with Edgumbe Bay.

The Repulse Isles are of small size; they are surrounded by rocks, which do not extend more than a quarter of a mile from them. The summit of the largest island is in latitude 20° 37' 5", and longitude 148° 50' 30", variation 6° 15' east.

Between Capes Conway and Hillsborough the flood tide comes from the north-eastward, but is very irregular in the direction of the stream. At an anchorage off the island near the latter Cape, the tide rose twelve feet, but close to the Repulse Isles, the rise was eighteen feet. At the former place, the moon being full, high-water took place at about three-quarters past ten o'clock; by an observation the next day, at the latter, it was a quarter of an hour later: the maximum rate was about one and a half knot.

14. Whitsunday Passage, formed by the northern group of the Cumberland Islands, is from three to six miles wide, and, with the exception of a small patch of rocks within a quarter of a mile from Cape Conway, and a sand-bank (that is probably dry, or nearly so, at low water) off Round Head, is free from danger. The shores appear to be bold to, and the depth, in the fair way, varies between twenty and thirty fathoms: the shoal off Round Head stretches in a N. N. W. direction, but its extent was not ascertained.

In steering through the strait, particularly during the flood tide, this shoal should be avoided, by keeping well over to the east shore; for the tide there sets across the strait; it is about a mile and a half from Round Head, in which space the water is ten and fourteen fathoms deep.

Between Round Head (in latitude 20° 28' 30") and Cape Conway, is a bay where there appeared to be good anchorage, out of the strength of the tides; and to the north of Round Head is another bay, the bottom of which is an isthmus of about a mile wide, separating it from an inlet to the westward of Cape Conway. This bay very probably affords good anchorage out of the strength of the tides.

15. Cape Conway, in latitude 20° 32', and longitude 148° 54', is the western limit of the south entrance of Whitsunday Passage; it is a steep point, sloping off the eastward. Immediately on its north side is a small shingly beach, a few yards behind

which there is a hollow, containing a large quantity of fresh water. At a short quarter of a mile from the point is a rocky shoal of small size, between which and the shore there is deep water.

16. Pine Head, in latitude 20° 23', and longitude 148° 51' 40", is the south-east extremity of a small island that is separated from the main by a passage of about a mile wide, but we did not ascertain whether it is navigable. The head is a high bluff point, clothed with pine trees; near it the tide runs in strong eddies, and for that reason it ought not to be approached nearer than half a mile; it appeared to be bold to. There is a sandy bay on its south-west side, affording a good landing place; the island is clothed with grass, and thickly wooded. We found no water. The variation was 5° 35' E.

17. Port Molle, so named by Lieutenant Jeffreys, appeared to trend in for four or five miles; and, probably, to afford a convenient port, as it is well sheltered from the wind, and is protected from the north-east by a group of small islands, thickly wooded. Hence the land trends to the north-west, towards Cape Gloucester. The shore was very indistinctly seen, but seemed to be very much indented, and to possess several bays, if not rivers; for the land at the back is very high, and must give rise to several mountain, if not navigable streams.

18. Mount Dryander, whose summit, in latitude 20° 14' 10", and longitude 148° 30' 55", forms a small peak, and is visible from Repulse Bay, as well as from the northern extremity of the Cumberland Islands: it is four thousand five hundred and sixty-six feet high; and the hills around it are at least from seven hundred to a thousand feet in height.

The greater part of the water that collects from these hills is probably emptied into Repulse and Edgumbe Bays, or it may be distributed in lagoons upon the low land that separates them.

At the back of Point Slade there is a high mountainous range, extending without interruption to the westward of Mount Upstart. In latitude 21° 1½', and longitude 148° 36½', is a high-rounded summit, which is visible at the distance of twenty leagues. Between this range, which is at the distance of from five to seven leagues from the sea, and the coast, are several ridges gradually lowering in altitude as they approach the shore. In the neighbourhood of Repulse Bay, this mountainous range recedes, and has a considerable tract of low land at its base, which is possibly a rich country. From the height of the hills, it must be well watered.

19. Cape Gloucester. The point of land that Captain Cook took originally for the Cape, is an island of about five miles long and two broad, separated from the true Cape Gloucester by a strait a mile and a half wide. The island is called Gloucester Island: its summit at the north end is in lat. 19° 57' 24", long. 148° 23' 38", it is eighteen hundred and seventy-four feet high, and its summit is a ridge of peaks, its shores are rocky and steep; and although the sides of the hills are wooded, yet it has a sombre and heavy appearance, and at least does not look fertile. The Cape in latitude 20° 1' 50", and longitude 148° 28' 15", is the extremity of the mountainous range that extends off Mount Dryander. The variation observed off the Island was 7° 11' E.

20. Edgumbe Bay is a deep indentation of the land, the shores of which are very low, its extent was not ascertained, but, by the bearings of some land at the bottom, it is seventeen miles deep; and its greatest breadth at the mouth, is about fourteen miles. It affords excellent shelter; and between Middle Island (a small rocky islet of a mile and a half in extent) and Gloucester Island, there is good anchorage in seven fathoms muddy bottom, with protection from all winds. We did not examine the bay farther than passing round Middle Island in six, seven, and eight fathoms, mud. The

western side is formed by low islands, that appeared to be swampy; but our distance was too great to form the most distant opinion of them: if the main is not swampy, it must be a rich and interesting country.

21. Holborne Island is a rocky island, visible about seven or eight leagues, and has three small Islets near it: it is in latitude $19^{\circ} 41' 5''$, and longitude $148^{\circ} 17' 38''$.

Cape Upstart is the extremity of Mount Upstart, which is so high as to be visible for more than twenty leagues in clear weather; it rises abruptly from a low projection, and forms a long ridge of mountainous land; the north-east end of the summit is in latitude $19^{\circ} 41' 50''$, and longitude $147^{\circ} 44' 30''$. This point separates two deep bays, both of which were of very inviting appearance, on account of the high and broken character of the gullies on either side of Mount Abbott, and it was almost evident that they both terminate in a river. The hills of Mount Upstart are of primitive form, and were judged to be composed of granite. The variation observed off the point was $6^{\circ} 16'$ E.

22. Cape Bowling-Green is very low, and projects for a considerable distance into the sea: its north-east extremity is in latitude $19^{\circ} 19' 10''$, and longitude $147^{\circ} 23'$ E.; the mountainous ranges are at least thirty miles in the rear, and, were it not for Mounts Upstart and Elliot, both of which are very visible, and serve as excellent guides: this part of the coast would be very dangerous to approach, particularly in the night, when these marks cannot be seen, when great attention must be paid to the lead. A ship passing this projection should not come into shallower water than eleven fathoms; and, in directing a course from abreast of Mount Upstart, should be steered sufficiently to the northward to provide against the current which sets into the bay on the western side of the Mount. On approaching the Cape, if the soundings indicate a less depth than eleven fathoms, the vessel should be hauled more off, because she is then either parallel with, or to the southward of the Cape.

23. Cape Cleveland, (latitude $19^{\circ} 10' 10''$, and longitude $146^{\circ} 57' 56''$), like Mount Upstart, arises abruptly from a projection of low land, separating Cleveland Bay from a deep sinuosity that extends under the base of Mount Elliot, a high range with a rounded hill and a peak, the latter being at the south extremity of its summit. Mount Elliot may probably be seen at the distance of twenty-five leagues, if not farther: between it and the hills of Cape Cleveland the land is low, and is probably much intersected by water.

A reef extends from the extremity of Cape Cleveland for four miles to the eastward, but not at all to the northward, so that with the point bearing to the southward of W. $\frac{1}{2}$ S., a ship is safe. There is a breaker near the extremity of the reef, at about three miles from the point; to avoid which, keep the south end of Magnetical Island well open of the north extremity of the Cape.

The peaked summit of Mount Elliot is in latitude $19^{\circ} 33' 10''$, and longitude $146^{\circ} 54' 25''$.

24. Cleveland Bay affords good anchorage in all parts, in four, five, and six fathoms, a considerable flat extends for a mile from the shore on the western side of the Cape, and is left dry at half ebb, it fronts a sandy beach that commences at a mile and a half to the south of the Cape, and extends to the southward for nearly two miles; over this beach, two or three streams of fresh water communicate with the sea, they take their rise from the hills, and probably are seldom dry.

The most convenient watering-place is near the centre of the beach, a little to the northward of the highest hills. Wood for fuel is plentiful, and grows close to the beach, and may be embarked with facility, the best place is at the north end of the sandy beach, since the boat can be brought nearer to the shore to protect the wooding party.

25. Halifax Bay extends from Cape Cleveland to Point Hillock, it has several islands in it, and is fronted by the Palm Islands, the summit of which is in lat. $18^{\circ} 43' 5''$ lon. $146^{\circ} 35' 15''$: this group consists of nineteen islands, one only of which is of large size, being eight miles long and three wide, it probably affords all the conveniences of a sheltered anchorage, and a good supply of wood and water.

In latitude $18^{\circ} 49'$, nine miles from the shore and six miles within the island, No. 2 is a coral reef, that shews at low water, it appeared to be about two miles long, between it and No. 2 is a wide channel with 9 fathoms. The *Lady Elliot* merchant ship, in 1815, struck upon a reef in $18^{\circ} 45'$, about 4 miles from the shore; we anchored late in the evening, within 4 miles of its position, but, at daylight, when we got under way, it might have been covered by the tide, for it was not visible.

In $18^{\circ} 32'$ and $146^{\circ} 41'$, is a reef, on which the *San Antonio*, merchant brig, struck; its position was not correctly ascertained, as the accident happened in the night.

26. Point Hillock is in lat. $18^{\circ} 25'$, and long. $146^{\circ} 20'$, it is a low point projecting to the eastward, under Mount Hinchinbrook.

27. Cape Sandwich is the north-east extremity of the sandy land that stretches to the northward from the base of Mount Hinchinbrook, which is so high as to be visible for 18 leagues, the mount is topped with a craggy summit, 7 miles in length from north to south.

There is a reef that extends for nearly a mile and a half off the Cape, having a rocky Islet at its extremity. The Cape is in lat. $18^{\circ} 13' 20''$, and long. $146^{\circ} 16' 40''$. The peak at the north end of Mount Hinchinbrook is in lat. $18^{\circ} 21' 30''$, and long. $146^{\circ} 15'$.

28. Brooke's Islands lie 4 miles north from Cape Sandwich; they consist of three rocky Islets, besides some of smaller size, the whole are surrounded by a coral reef.

From Cape Sandwich the land extends, low and sandy, in a north-west direction for five miles to a point, which is terminated by a hill. Between this and Goold Island there appears to be a navigable strait leading into Rockingham Bay.

29. Goold Island, the summit of which, formed by a conical hill covered with wood, in lat. $18^{\circ} 9' 35''$, and long. $146^{\circ} 9'$, is about two miles long; the south-west point of the island is a long strip of low land, with a sandy beach, at the eastern end of which there is a run of water, and fuel may be cut close to the shore. High water takes place at full and change at three-quarters past ten.

30. Rockingham Bay appears to be a spacious harbour. At the bottom there was an appearance of an opening that may probably communicate with an inlet on the south side of Point Hillock, and insulate the land of Mount Hinchinbrook. There is good anchorage in the bay in 4 and 5 fathoms mud, near Goold Island.

The natives are very friendly here, and will come off and visit the ship.

31. Family Isles consist of seven small rocky Islets, covered with a stunted vegetation.

32. Dunk Island is remarkable for having two peaks on its summit; the south-east summit is in lat. $17^{\circ} 58'$, and lon. $146^{\circ} 8' 45''$. The variation observed in the offing, to the N. E. was $6^{\circ} 41'$ E.

33. Barnard Group forms a group of small rocky islands extending in a straggling direction for 6 miles to the south of Double Point. Three miles to the south of the southernmost island, but nearer to the shore is a reef of rocks which dry at low water.

34. From Double Point, (lat. of its summit $17^{\circ} 39' 50''$), to Cape Grafton, the coast is formed by a succession of sandy bays and projecting rocky points. In lat. $17^{\circ} 31'$, in the centre of a sandy bay, is a small opening like a rivulet, and, on the south side of Point Cooper is another, but neither appeared to be navigable for boats.

Abreast of Frankland's Islands, and near the south end of a sandy bay of 6 miles in extent, there is another opening like a river, that, from the appearance of the land behind, which is low and of a verdant character, may be of considerable size. The high mountains to the southward, Bellenden Ker's Range must give rise to a considerable stream; and it appears very probable that this may be one of the outlets, but the most considerable is, perhaps, that which falls into Trinity Bay, round Cape Grafton.

35. Frankland's Islands consist of several low islets, one of which is detached, and of higher character than the others, which are very low, and connected by a reef. The largest island may be seen 5 or 6 leagues off, it is in lat. $17^{\circ} 7' 45''$.

The land between this and Cape Grafton is high, and towards the north has several remarkable peaks. The land of Cape Grafton may be readily known, when seen from the southward, by appearing like three lofty islands, the outermost is Fitzroy Island, but the others are hills upon the main. The easternmost of the latter, Cape Grafton, is conspicuous for having too small peaks, like notches, on the west extremity of its summit; it is joined to the westernmost by low land, which also separates the latter from the other hills behind it, and as this low land is not seen at a distance, the hills assume the appearance of islands.

There is good anchorage in the strait between Cape Grafton and Fitzroy Island, but, with a northerly wind, the better anchorage would be on the south side of the Cape. The former is exposed to all winds between N. W. and N. E. In the former case the anchor may be dropped in 9 fathoms, at a quarter of half a mile from the beach of the island. The north extremity of Cape Grafton is in lat. $16^{\circ} 51' 20''$, long. $145^{\circ} 53' 5''$, the S. E. extreme is in lat. $16^{\circ} 54' 20''$, long. $145^{\circ} 55' 15''$.

36. Fitzroy Island furnishes both wood and water, it has a peaked summit. It affords anchorage in the bay on its western side, off a coral beach, the S. W. end of which is in lat. $16^{\circ} 55' 21''$, and long. $145^{\circ} 56' 21''$. Nine miles to the eastward of Fitzroy Island is a small bare sandy island, and at about 7 miles N. E. by E. from it, there was an appearance of extensive shoals. Variation $5^{\circ} 10' E$.

On the west side of Cape Grafton is a bay, in the centre of which is an island. The bottom is very shoal, but good anchorage may be had with the Cape bearing S. E. Between Cape Grafton and Snapper Island, the centre of which is in latitude $16^{\circ} 17' 35''$, and longitude $145^{\circ} 27' 40''$, is Trinity Bay; the shores of which were not very distinctly seen. At the south side and about seven miles within the Cape, there is an opening that appeared to be extensive, and the mouth of a considerable stream, trending in between high ranges of land, in a direction towards Bellenden Ker's Range.

In lat. $16^{\circ} 23' 1'$ and long. $145^{\circ} 34'$, are the Low Isles, a group consisting of three Coral Islands, which, being very low, are dangerous to pass in the night.

The offing is said to be strewed with extensive reefs; we saw none beyond Green Island. Those that are laid down on the chart are from Lieutenant Jeffreys's account.*

37. Snapper Island lies off the point which forms the northern limit of Trinity Bay, it is small, and does not supply any water.†

The land behind Cape Tribulation may be seen at a greater distance than twenty leagues. It is here that the outer part of the barrier reefs approach the coast, and there is reason to believe that in latitude $16^{\circ} 17' 35''$, longitude $145^{\circ} 27' 40''$, they are not

* Much shoal water was seen to the northward of Green Island, from H. M. S. Tamar's mast head.—Roe M. S.

† See or eleven miles S. 80° E. from Snapper Island, is the north-west end of a shoal extending to the S. 41° E. for sixteen or seventeen miles, the Tamar anchored under it.—Roe M. S.

more than twenty miles from it. The Cape has a hillock at its extremity, and a small rocky islet close to the shore, that renders it conspicuous, it is fourteen miles beyond Snapper Island. The shore appears to be bold to: at 3 miles off we had 16 fathoms.

Ten miles further to the northward is Blomfield's Rivulet, in Weary Bay. It is blocked up by a rocky bar, having only 4 feet water over it, the anchorage off it is too much exposed to be safe. The river runs up for four or five miles, having soundings within it from three to four fathoms; its entrance is in $15^{\circ} 55' 50''$.

The coast then extends to the north to Endeavour River, and forms a few inconsiderable sinuosities, it is backed by high land, particularly abreast of the Hope Islands. These islands open of each other in a N. 39° E. direction, and appear to be connected by a shoal: it is, however, very likely that a narrow passage may exist between them, but certainly not safe to sail through until explored.

Here the number of the Coral Reefs begin to increase, and great attention must be paid in navigating amongst them, but with a careful look-out from the mast head, whence their extent is plainly visible, and a quick leadman in the chains, no danger need be apprehended.

Between reef *a* and a shoal off, the south-west Hope Island, there is a passage two miles wide, with twelve fathoms; *a* is about half a mile in diameter, with a few rocks above water, its centre is in $15^{\circ} 43' 20''$, two miles from the shore, and three miles N. W. by $W \frac{1}{2} W$. by compass, from the south-west Hope.

B is about a mile and a quarter long, and has a dry rock at its north end, the lat. of which is $15^{\circ} 39' 20''$: it is divided from Endeavour Reef, by a channel of nearly a mile wide, and 15 fathoms deep. Abreast of the south end of *b*, on the western edge of Endeavour Reef, there is a dry rock, in lat. $15^{\circ} 39' 55''$.

38. Endeavour Reef is nine miles long: it lies in a N. W. direction, the north end, in $15^{\circ} 39' S$. bears N. $\frac{1}{2} W$. by compass from the north-east Hope.

C is covered, and not quite half a mile in length: its lat. is $15^{\circ} 32'$: it lies 4 miles from the shore.

D is rather larger, and has some dry rocks on its north end, in lat. $15^{\circ} 29' 30''$. Between *c* and *d* and the shore, the passage is from 3 to 4 miles wide, and in mid-channel the depth is 7 and 8 fathoms.

On the south side of Point Monkhouse there is a bay, having a small opening at the bottom, but not deep enough for ships; it was this bay that Captain Cook first examined in search of a place to repair his ship.

On steering along the shore between Point Monkhouse and the entrance of Endeavour River, the bottom is of sand and of irregular depth. A spit of sand was passed over with only $2\frac{1}{2}$ fathoms on it, when the summit of Mount Cook bore S. $66^{\circ} W$. (mag.) and the outer extreme of Point Monkhouse S. $18^{\circ} W$. (magnetic.) One mile off shore, the shoal soundings continued with $2\frac{1}{2}$ fathoms, until it bore S. $59^{\circ} W$. (magnetic) when the depth was 3 and $3\frac{1}{2}$ fathoms.

39. Endeavour River. The entrance of this river, in lat. $15^{\circ} 27' 4''$, and long. $145^{\circ} 10' 49''$,* forms a very good port for small vessels, and in case of distress, might be useful for large ships, as it proved to our celebrated navigator Captain Cook,

* The situation of the Observatory at Endeavour River was found by lunar distances, taken during my visits to that place in 1819 and 1828, as follows:

Lat. by meridional altitudes of the sun, taken in the artificial horizon being the mean of 27 observations,	15	27	4
Long. by twenty-five sets of distances (Sun W. of Moon) containing 117 sights, with sextant,	144	53	16
Long. by thirty sets of distances, (Sun E. of Moon) containing 150 sights with the sextant,	145	29	33
Mean, of fifty-five sets,	145	10	49

who, it is well known, repaired his ship there after having laid 23 hours upon a coral reef.

The entrance is formed on the south side by a steep hill covered with trees growing to the edge of its rocky shore. The north side of the entrance is a low sandy beach of 2½ miles in length, at its north end a range of hills rises abruptly, and extends for 6 or 7 miles, when it again suddenly terminates, and is separated from the rocky projection of Cape Bedford, by a low plain of sand.

The entrance of Endeavour River is defended by a bar on which, at high water, there is about 14 feet, but at low water not more than 10 feet. The channel over the bar is close to the south side, for the sand-bank extends from the low sandy north shore, to within 110 yards of the south shore, and at three quarters ebb (spring tides) is dry.

In steering in for the mouth, upon bringing Point Monkhouse in a line with Point *a*, (the north point of the bay under Mount Cook) you will be in three fathoms, steer in until the south extremity of the low north sandy point is opened of the trend round Point *c*, when you may haul a little more in, and when Point *d*, (which is the point where the Mangroves commence) bears S. 33° W. (magnetic) steer directly for it, this will carry you over the deepest part of the bar, which stretches off from Point *c* in a N. 75° W. (magnetic) direction.

Another mark is to keep the trend beyond *d*, just in sight, but not open, or you will be too near the spit, the best way is having opened it, haul in a little to the southward, and shut it in again, you may pass within 10 yards of Point *d*, and the best anchorage is just within it, the vessel may be secured head and stern to trees on the beach, with bow and stern anchors to steady her.

No vessel of a greater draught than 12 feet should enter the harbour, but this vessel may moor in 4 fathoms within her own length of the shore, with the outer trend just shut in by the Mangrove Point *a*.

The watering place is a stream that empties itself into the port through the Mangroves, about 200 yards to the south, and if this should fail, there is a good stream at the north end of the long north sandy beach. The latter, although very high-coloured, is of wholesome quality, but in bad weather is inconvenient to be procured on account of the surf—water for common purposes of cooking may be had on a sandy beach a little without the entrance, but it is of a mineral quality, and of brackish taste. It is high water at full and change at 8 o'clock, and the tide rises from 5 to 10 feet. The variation at the Observatory was 5° 14' E.

40. Cape Bedford, (lat. 15° 16' 19", long 145° 17' 10") is high, and forms a steep slope to the sea: it appeared to be bold to.* Between it and Cape Flattery is a bay backed by low land, about 5 miles deep, but it is exposed to the wind, unless there is anchorage under the north-west end of Cape Bedford.

41. Cape Flattery is 18 miles north of Cape Bedford, its extremity is high and rocky, and forms two distinct hills. The summit of the Cape is in lat. 14° 52' 30", and long. 145° 16' 10."†

42. Eleven miles beyond the Cape, in a N. 45° W. direction, is Lookout Point, forming a peaked hill at the extremity of a low sandy projection, whence the land trends W. by N. ½ N. for twelve leagues to Cape Bowen.

e, a reef nearly 3 miles long and one broad; its north end is 12 miles nearly due east from the entrance of Endeavour River, in lat. 15° 28' 50", long. 145° 23' 30".

43. Turtle Reef, covered at high water, excepting a small spot of sand about the size of a boat

at its north end, lies in lat. 15° 23' and long. 145° 22' 50". Its interior is occupied, like most others, by a shoal lagoon, it is entirely of coral, and has abundance of shell fish; it was here that Captain Cook procured turtle during his stay at Endeavour River, from the entrance of which it bears N. 67° E. (magnetic,) and is distant eleven miles. Its south end is separated from *c* by a channel of a mile wide.

44. Three Isles, in lat. 15° 7' 30", is a group of low coral islets covered with shrubs, and encircled by a reef, that is not quite two miles in diameter.

Two miles and three quarters to the N. W. is a low wooded island, about a mile long, also surrounded by a reef, and 4 miles to the southward of it is a rocky islet.

Reef *f*, is about 4 or 5 miles E. S. E. from Three Isles, it appeared to be about 3 miles long, its western extreme is in lat. 15° 10', and in long. 145° 26'.

45. Two Isles are also low and wooded, and surrounded by a reef. The largest islet is in lat. 15° 1' 20", and long. 145° 22' 10".

Reef *g* appeared to be about a mile broad and 2½ miles long. Its south end is in lat. 15° 0' 15", long. 145° 20' 45".

h is an extensive reef, having high breakers on its outer edge. It is more than 4 miles long, and separated from the north end of *g* by a channel a mile wide.

Reef *i* has several detached rocks about it. On the northernmost are two rocky islands, and to the southward on a detached shoal, there is a bare islet, that is perhaps occasionally covered by the tide—its south-westernmost extremity and summit of Lizard Island are in the line of bearing of N. 5° W. (magnetic) its lat. is 14° 53' 40".

Reef *k*, in lat. 14° 47' has a dry sand upon it: its submarine extent was not ascertained.

Reef *l*, the position of this reef is rather uncertain, near its western side is a dry key, in lat. 14° 17' 30".

m is probably unconnected with the shoal off the south end of Eagle Island. In Capt. Cook's rough chart there is twelve fathoms marked between two shoals, which must mean the above.

46. Eagle Island is low and wooded, and situated at the north end of a considerable shoal: its latitude is 14° 42' 20" and longitude 145° 18' 30".

47. Direction Islands are two high rocky islands, so called by Captain Cook, to direct ships to the opening in the reefs, through which he passed out to sea, they are high and of conical shape, and might be seen more than five or six leagues off was it not for the hazy weather that always exists in the neighbourhood of the reefs, the northernmost is in latitude 14° 44' 50", longitude 145° 26' 25", the southernmost is in latitude 14° 50', longitude 145° 26' 45".

48. Lizard Island, about 3 miles long, is remarkable for its peaked summit, the lat. of which is 14° 40' 20", and long. 145° 23'. On its south side is an extensive reef, encompassing three islets of which two are high and rocky, the best anchorage is on its western side under the summit, with the high northernmost of the Direction Islands in sight over the low land, bearing about S. E. by compass, the depth is 6 and 7 fathoms sandy bottom. The variation here is 5° 2' E.

49. Turtle Group is 4 miles to the north of Point Lookout, the islets are encircled by a horse-shoe-shaped Coral Reef and consists of 6 islands, all low and bushy. These islands are not laid down with sufficient accuracy as to their relative position.

n is a low wooded island, about 11 miles west from Lizard Island; no reef was seen to project from it, it is in the meridian of the Observatory of Endeavour River, and in lat. 14° 40'.

o is a small Coral Reef, it lies a mile and a half N. 64° W. from the north end of *n*.

p is a Coral Reef, about a mile in extent, separated from *o* by a channel of a mile wide.

* Shoal water extends for nearly a mile round Cape Bedford.—Roe M. S.

† There are some dangerous shoals to the eastward of Lookout Point, and to the northward of Cape Flattery, about two miles apart from each other situated in what was considered to be the fair channel.—Roe M. S.

g a reef, on which are too low wooded isles, apparently connected with a shoal extending from Point Lookout along the shore to the W. N. W., the isles are 7 miles N. 64° W. from Point Lookout.

50. Coles Islands consist of four small bushy islets, from a quarter to half a mile in extent, they are from 4 to 6 miles N. E. from Point Murdoch. This group appeared to be merely the several dry parts of the shoal that extends from Point Lookout to Noble Island, between them and the latter island are two patches of dry sandy keys, but it is probable that they may be covered by the tide. The continuation of the shoal between the islands and Point Lookout was not clearly ascertained.

51. At Point Murdoch, which has a peaked hill at its extremity, the hills again approach the coast, at Cape Bowen they project into the sea, and separate two bays, in each of which there is possibly a rivulet, that to the eastward of the cape trends in and forms a deep bight.

On the western side of the hills of Cape Bowen, there is a tract of low land, separating them from another rocky range. The summit of the hill at Point Murdoch is in lat. 14° 40' and long. 144° 46'.

52. Howick's Group* consists of 10 or 11 islands, of which No 1, remarkable for a hillock at its south east end, is in lat. 14° 32' 40", and long. 144° 55' 20", it is nearly three miles long, the rest are all less than half a mile in extent, excepting the westernmost. No. 6, which is nearly a mile and a half in diameter.

The passage between 2 and 3 is safe, and has 7 and 8 fathoms, the northwest side of 3 is of rocky approach, but the opposite side of the strait is bold to, the anchorage is tolerably good. The *Mermaid* drove, but it was not considered to be caused by the nature of the bottom, which is of soft sand, and free from rocks.

The channel between 1 and 2 appeared to be very rocky, and shoal; between 1 and the reef r there is probably a clear channel of about a mile wide, the north east end of 1 has a reef which extends off it for half a mile.

All the Islands are low and wooded, and surrounded by a coral reef of small extent.

4 has a small islet off its west end.

5, 8, and 9, did not appear to have any reefs projecting from them—7 is probably two islands, with a reef extending for half a mile on its western side—6 is of larger size than the generality of the low islands hereabouts, No. 1 excepted; its centre is in lat. 14° 28", and long. 144° 45". The position of No. 10 was not correctly ascertained.

53. The peak of Cape Bowen is in latitude 14° 34", and longitude 144° 35' 40".

54. Noble Island is a rock, having a sandy or a coral beach at its north-west end. Although small, it is very conspicuous: and when first seen from the southward, has the appearance of a rock with a double rounded top.

The reefs s, t and u are unconnected, the north end of s lying 6½ miles due east from Point Barrow, was dry for a considerable extent; t one mile to the north, was covered, but there is a dry sandy key on u, bearing from Point Barrow, N. 32° E. 6 miles, some rocks shewed themselves above the water of its south end.

v and w may possibly be connected; the former was noticed to extend for 3 miles, and the latter for nearly 10 miles; there was, however, a space of 3 miles between them, where a channel may possibly exist. The channels between t and u and between v and w, appeared to be clear and deep.

The reefs x, y and z are probably parts of the barrier reefs, for the sea was breaking very heavily upon their outer edge; there were, however, considerable spaces where no breakers appeared, some

of which being 3 or 4 miles wide, may possibly be as many outlets to sea.

55. Ninian Bay is a bight to the west of Point Barrow,* it is about 3 miles deep, and has a small opening at the bottom, in crossing it we had not more water than 4 fathoms, and within our course it appeared to be very shoal; there is doubtless a channel leading to the opening, but, to the name of harbour or port, it has not the slightest pretension, it was named Port Ninian by Lieut. Jeffreys. Off the north end of Port Barrow are two rocky islands.

Between Ninian Bay and Cape Melville the coast is high and rocky, but appeared to be fronted by a reef, which in some places extends for a mile and a half from the shore; in this interval there are two or three sandy beaches, but I doubt the practicability of landing upon them in a boat. The summit and sides of the hills that form the promontory, of which Cape Melville is the extreme, are of most remarkable appearance, being covered with heaps of rounded stones of very large size.

56. Cape Melville, sloping off into the sea to the north, terminates a remarkable promontory in lat. 14° 9' 30", and long. 144° 21' 50". The coast trends round it to the S. S. W. and S. W. and forms Bathurst Bay, which is 9½ miles deep, and 13 wide, the western side being formed by Flinders' Group.

A reef extends for more than two miles off Cape Melville, in a N. W. by N. direction, on which some rounded stones, similar to those upon the land, are heaped up above the sea. There is also one of these heaps at the extremity of the reef, outside, and within a quarter of a mile of which we had 14 fathoms water. There are two other similar heaps within the outer pile, and between them there are possibly clear passages, but they should not be attempted without great caution. It was remarked, that the breeze always freshened on passing round this cape.

57. Pipon Islands, two small islets, of which the easternmost is the largest, are in latitude 14° 6' 40", longitude 144° 26' 5"; they are surrounded by a reef, lying two miles and a half from the Cape. Between them and the reef that extends from the Cape, there is a safe and deep passage of more than a mile wide.

The south-east side of Bathurst Bay is shoal. At the bottom are two openings, with some projecting land between them, at the extremity of which there is a peak. These openings are doubtless rivulets of considerable size, and take their rise from the high land at the back of Cape Bowen.

58. Flinders's Group forms the west head of Bathurst Bay. They are high and rocky, and consist of four islands, two of which are three miles long. The peak of the largest island, in lat. 14° 11' 5", and longitude 144° 12' 5", is visible from a distance of twelve or thirteen leagues; and higher parts of the islands may be seen generally at seven or eight leagues.

On the eastern side of the northernmost island there is a bay fronted by a coral reef, but it is too exposed to the prevailing winds to be safe. It is here that the *Frederick* (merchant ship) was wrecked in 1818.

59. Cape Flinders, in latitude 14° 8', longitude 144° 10' 20", is the north extremity of the island. It may be passed close to with twelve fathoms. The best anchorage is under the flat-topped hill, at a quarter of a mile from the shore, in ten fathoms mud. The variation is 5° 20' E. It is high water at full and change at a quarter past nine.

In the offing is a low wooded island of more than a mile in diameter.

60. Clack's Island is a high rock, situated at the south-east end of reef b, in latitude 14° 4' 45",

* Many shoals, partly dry, occupy the space to the northward and eastward of Howick's Group.—Roe M. S.

* Off Point Barrow, the shoals lie from half to one mile nearer the shore than they are laid down, and one mile and three quarters N. 55° E. from the Point are two small patches of coral, under water. They bear N. E. and S. W. from each other, and are probably one-tenth of a mile apart.—Roe M. S.

and longitude $144^{\circ} 11' 45''$, and being a bare black rock, with no apparent vegetation, is a conspicuous object. There is another rock on its north-east end. The reef is of circular shape, and three miles in diameter.

The shoal marked *a*, was not seen by us. H. M. sloop *Satellite* struck upon it in June, 1822, on her passage to India. The following marks for it were obligingly communicated to me by Captain M. J. Currie, of H. M. sloop *Satellite*, who sent a boat to examine it upon her second voyage the following year.

"In crossing the northern part of Bathurst Bay, and nearly in mid-channel between Cape Flinders and the low wooded island, there is a small patch of sunken rocks, lying north and south, not more than a cable's length in extent, the least water being one fathom. The *Satellite* grounded on them in two fathoms, in June 1822. I sent a boat to examine this shoal in making the same passage in August, 1823, and found it to be under the following bearings (by compass); viz. Cape Flinders, S. W. b. W. the high peak on the south-east part of Flinders's Group, S. $\frac{1}{4}$ W., the highest of Clark's Islands, N. W. $\frac{1}{2}$ W. and Cape Melville, E. $\frac{1}{4}$ S. It is a dangerous shoal in running for Cape Flinders, but may be easily avoided by steering near the low wooded island, to the north-east of the Cape, or by keeping the shore of Flinders's Group on board, which is perhaps preferable. The variation is $5^{\circ} 40'$ East."*

61. Princess Charlotte's Bay is an extensive bight in the coast, twenty-two miles deep, and thirty-one broad; its shores are low, and at the bottom, in latitude $14^{\circ} 29'$, there is a Mangrove opening.

62. Jane's Table Land, in latitude $14^{\circ} 29' 15''$, and longitude $144^{\circ} 4' 45''$, is a remarkable flat-topped hill at the bottom of the bay, rising abruptly from the surrounding low land. It is about five miles from the coast; its summit, by the angle it subtended, is about a mile in length. Excepting this hill, no other high land was seen at the bottom of the bay.

On the western side the land rises to a moderate height, and forms a bank of about ten miles in extent, but this was not visible for more than three or four leagues. To the north of this no part of the interior can be seen until in latitude $13^{\circ} 55'$, when the south end of a ridge of hills commences at about seven miles behind the beach, which it gradually approaches until it reaches the coast in $13^{\circ} 35'$, and is terminated by a round hill. The coast then extends with a low sandy beach for eleven miles to Cape Sidmouth.

c is a covered reef of coral, extending N. E. b. E. and S. W. b. W. for seventeen miles. Its south-west end bears N. 75° W. twelve miles and a half, from Cape Flinders.

d, *e*, and *f*, are three coral banks, having dry sandy keys on each; they are of circular shape, and from a mile to a third of a mile in diameter. *d* is the largest, and bears nearly due west from Cape Flinders, from which it is distant twelve miles and a half.

g and *h* are two coral reefs; but it was not ascertained whether they are connected to each other or not. They may also be joined to *c*, and indeed this supposition is very likely to be correct, for we found the water quite smooth, and little or no set of tide on passing them. On the south-west extremity of *g*, in latitude $14^{\circ} 1' 20''$, longitude $143^{\circ} 50'$, there is a dry sandy key, as there is also upon *h*, but on the latter there are also rocks, and the sand is dry for four or five miles along its north-west side. The south-west end of *h* is in latitude $13^{\circ} 59'$, longitude $143^{\circ} 49'$.

* The shoal is in a line with, and half way between, the flat-topped hill on the north island of Flinders's Group, and the centre of the low wooded island, and is nearly joined to some shoal water that extends for two miles from the latter island. — See M. S.

i is a circular coral reef, of a mile and a quarter in diameter, and has a dry sandy key at its north-west end: it is two miles N. N. W. from the south-west end of *h*.

k is a small reef with a sandy key upon it, four miles to the east of Pelican Island.

63. Pelican Island is on the north-west side of a reef of more than a mile and a half long; it is very small, but remarkable for having two clumps of trees, which at a distance give it the appearance of being two small islets; it is low, and, like the other islands of its character, may be seen at ten miles from the deck; its latitude is $13^{\circ} 54' 45''$, and longitude $143^{\circ} 46'$.

l is a long narrow coral reef, extending in a N. N. E. direction; it is 13 miles in extent, but generally not more than one-third of a mile wide; its greatest width is not more than a mile and a half; its south-west end is five miles and three-quarters north from Pelican Island.

m is an extensive coral reef, extending for fifteen miles in N. E. b. N. direction, parallel with *l*, from which it is separated by a channel of from one to two miles wide. At its south-west end, where there is an extensive dry sandy key, and some dry rocks, it is two miles wide; but towards its northern end it tapers away to the breadth of a quarter of a mile. The south trend of its south-west end lies seven miles N. 44° W. from Pelican Island, and four miles from island 2 of Claremont Isles.

n is another extensive reef, which may possibly be connected with *m*. At its westernmost end, about four miles N. b. E. $\frac{1}{2}$ E. from the west end of *m*, is a dry sand of small extent.

It was considered probable that there was a safe passage between the reefs *l* and *m*. We steered so far as to see the termination of the latter, upon which the sea was breaking, which afforded a proof of its not being connected with the former, which also the dark colour of the water sufficiently indicated.

The *Mermaid* was nearly lost in attempting to cross the latter reef.

64. Claremont Isles consist of five small islets, numbered from 1 to 5; they are of coral formation, and are covered with small brushwood; they are from six to seven miles apart, excepting 4 and 5, which are separated by a channel only a mile and a half wide; off the east and south-east end of 5, a coral reef extends for a mile and a half to the eastward, having two dry rocks on its north-east end:—

Reef *o* extends in an east and west direction for a mile and a half, and at a mile farther there is another reef, that may be connected to it; *o* has a dry sand near its western extremity, in latitude $13^{\circ} 34'$, and longitude $143^{\circ} 38' 45''$.

Islet 6, in latitude $13^{\circ} 29'$, longitude $143^{\circ} 38' 26''$, is a very small, low, woody islet, with a reef extending for three quarters of a mile off its north and south ends.

A reef lies two miles and one-third N. $72\frac{1}{2}^{\circ}$ W. from Islet 6, and S. 59° E. from the summit of Cape Sidmouth; this reef is not more than a quarter of a mile in extent, and has a rock in its centre that is uncovered at half tide; it is a brown looking shoal, and therefore of dangerous approach.

65. Off Round Hill there is a sand-bank covered by the sea; it lies about two miles from the shore, and about E. N. E. from Round Hill summit.

g is a small, brown, rocky shoal, that is not visible until close to it, it bears S. 60° E. four miles from the extremity of Cape Sidmouth.

66. Cape Sidmouth is rather an elevated point, having higher land behind it, and at about nine miles in the interior, to the W. N. W., there is a

rounded summit; at the extremity of the Cape there are two remarkable lumps on the land, in latitude $13^{\circ} 24' 20''$, and longitude $143^{\circ} 30'$. The Cape is fronted by several rocky shoals, and ought not to be approached within four miles.

r is a sand-bank, on which we had two and a half fathoms; but from the nature of the other neighbouring reefs, *s* and *t*, it is perhaps rocky also, and may be connected with them. It lies four miles and a quarter N. 32° E. from Cape Sidmouth, and W. $\frac{1}{2}$ N. from Islet 7.

$6\frac{1}{2}$ and 7 are two bare sandy islets, situated at the north ends of reefs extending in a N. N. W. direction; the reef off the Islet $6\frac{1}{2}$ is four miles and a half in length, and that off 7 is two miles and a half long; $6\frac{1}{2}$ is in latitude $13^{\circ} 23' 20''$, longitude $143^{\circ} 39' 10''$; 7, in latitude $13^{\circ} 21' 20''$, and longitude $143^{\circ} 36' 10''$.

8 and 9 are two low, woody islets, of about a mile and a quarter in diameter. Some shoal marks on the water were observed opposite these islands, but their existence was not ascertained. Both the islets are surrounded by coral reefs of small extent.

67. Night Island, its north end in latitude $13^{\circ} 13' 8''$, and longitude $143^{\circ} 28' 40''$, is a low woody island, two miles long, but not more than half a mile wide; it is surrounded by a coral reef, that does not extend more than a quarter of a mile from its northern end. On the south side, and within it, the space seemed to be much occupied by reefs, but they were not distinctly made out on account of the thickness of the weather. There was also the appearance of a covered shoal, bearing N. 55° E. from the north end of the island, distant four miles.*

u and *w* are two reefs; the former, which was dry when we passed, lies 6 miles N. 18° W. from the north end of Night Island; there is also a small rock detached from it, which is not visible until close to it.

x is a covered coral reef, of about a mile and a quarter in extent; its centre is in $13^{\circ} 1'$ latitude.

68. Sherrard's Islets are low and bushy, and surrounded by a rocky shoal extending for a mile to the S. E.; the south-westernmost is in $12^{\circ} 58' 10''$ latitude, and $143^{\circ} 30' 15''$ longitude.

10 is a low wooded islet, in latitude $12^{\circ} 53' 10''$, on a reef of small extent; abreast of it is a rocky islet, lying about a mile and a half south from Cape Direction. Off its east end is a smaller rock.

The Coast between Cape Sidmouth and Cape Direction is rather high, and the shore is formed by a sandy beach. Ten miles N. W. from the former Cape is an opening in the hills. The high land then continues to the northward to Cape Direction, which has a peak near its extremity, close off which are two small rocks, but the depth at a mile and a half off, is thirteen fathoms. The peak is in latitude $12^{\circ} 51' 55''$, and longitude $143^{\circ} 26' 10''$ †

x. The position of this reef was not precisely ascertained. It appeared to be about two miles to the N. N. W. of the extremity of the Cape.

y and *z* are two covered reefs, of not more than a mile in extent; they are separated from each other by a channel, a mile wide: *y* is four miles and a half N. 51° E. from Cape Direction.

a and *b* are also covered reefs. The former is a mile and a quarter in length; the latter extends for two miles in an east direction, and is a mile broad: *a* bears nearly east, nine miles, from a peaked hill on the shore, and is five miles to the south of Cape Weymouth.

69. Lloyd's Bay was not examined. It appeared to have a considerable opening at its south-west end, where the land was very low; the hilly country to the south of Cape Direction also ceases, and

there is a considerable space of low land between them and the south end of Cape Weymouth range.

70. Cape Weymouth is an elevated point, sloping off from a high summit; its extreme is in latitude $12^{\circ} 37' 15''$, and longitude $143^{\circ} 20' 35''$. Restoration Island, off the Cape, is high and of conical shape. About a mile E. S. E. from it, is a small rocky islet. The coast then extends towards Bolt Head, and forms several sinuosities, one of which is Weymouth Bay of Captain Cook. The shores of the Bay were not well examined.*

71. Fair Cape, so named by Lieutenant Bligh, is a projection of high land, in latitude $12^{\circ} 25'$, longitude $143^{\circ} 11' 15''$. It has a reef off it, according to Lieutenant Jeffreys' account, but its situation does not appear to have been correctly ascertained: we did not see it.

72. Bolt Head is the north-west end of the high land at the south end of Temple Bay. It is here that the high land terminates, the coast to the northward being very low and sandy, with the exception of Cape Grenville, which is the rocky projection, that forms the north extremity of Temple Bay. A little to the south of the Cape is Indian Bay of Lieutenant Bligh. The latitude of Cape Grenville's east trend is $11^{\circ} 57' 30''$, and longitude $143^{\circ} 8'$.

c is a coral reef, with a dry sandy key at its northern end, in latitude $12^{\circ} 35' 20''$, longitude $143^{\circ} 25' 15''$. It is about two miles long.

d, a small oval-shaped reef in the channel between *c* and *e*. It is covered, and has perhaps twelve feet water over it.

e is an extensive coral reef, fourteen miles long, commencing in latitude $12^{\circ} 32\frac{1}{2}'$, and extending to $12^{\circ} 24'$, and in long. $143^{\circ} 16'$. It is entirely covered, except a few dry rocks at its north-west end. The south-eastern extremity of the reef is perhaps three or four miles wide, but its eastern termination was not clearly distinguished.

f is a small reef, about three miles S. W. from Quoin Island, which is a small wedge-shaped rock. It is in the neighbourhood of this reef that the merchant ship, *Morning Star*, was lost. Quoin Island is in latitude $12^{\circ} 24'$, and longitude $143^{\circ} 23' 50''$.

g is a coral reef, ten miles long, and from one to two broad, having a dry rock upon it (in latitude $12^{\circ} 18' 20''$, and long. $143^{\circ} 14' 35''$), about three miles from its north end.

73. Forbes's Islands are high and rocky, but appeared to be clothed with vegetation. The group occupies a space of about two miles. The summit of Forbes's Island is in latitude $12^{\circ} 16' 35''$, and longitude $143^{\circ} 18' 50''$.

h, a coral reef, with some dry rocks near its north end, is about one mile long, and separated from *i* by a narrow pass. The south end of *h* bears from the summit of Forbes's Island W. $\frac{1}{4}$ S. seven miles.

i and *k*, coral reefs, lying N. W. having a very narrow channel between them. The former is covered, but the latter has a dry sandy key at its north-west end, in latitude $12^{\circ} 12' 20''$, and longitude $143^{\circ} 10' 5''$.

74. Piper's Islets are four low bushy islets upon two circular reefs, with a passage separating them of a quarter of a mile wide. The reefs have each two islets upon them, and a dry rocky key round their western edge; the centre of the narrowest part of the channel between them is twelve and a half fathoms deep, but abreast the south end of the south-easternmost shoal there is ten and a half fathoms.

l, a circular coral reef, a mile and a half in diameter, with a dry rock at its east end, in latitude $12^{\circ} 9' 5''$, and longitude $143^{\circ} 11'$.

75. Young Island, a small islet on a coral reef, of about half a mile in extent, in latitude $12^{\circ} 6' 50''$, and longitude $143^{\circ} 7'$.

* Observed many shoals to the N. W. of Night Island, one bore E. N. E. two miles and a half from its north point. We saw much shoal water to seaward.—Roe M. S.

† Shoal water extends for about six miles round the north side of Cape Direction. Roe M. S. And for a mile to the eastward of it.—P. P. K.

* There is a dry sand four or five miles N. W. from Cape Weymouth.—Roe M. S.

w, a coral reef, about two and a half miles long, having a dry rock at its north end. It bears S. 40° W. three miles from the summit of Haggerston's Island.

n, an extensive, irregular shaped coral reef, seven miles long, and from one to four broad. It is separated from *o* by a narrow tortuous channel, but not safe to pass through: both *n* and *o* are covered. There is a safe passage between these reefs and Haggerston's Island, of a mile and a half wide; but there is a small reef detached from the north-west end of *n*, which should be avoided, although there is probably sufficient depth of water over it for any ship. It was seen from the summit of the island, from whence another coral patch was observed at about one mile to the westward, of which we saw no signs.

p is a small reef, of about a mile and a quarter in extent; it was seen from the summit of Haggerston's Island, as was also another reef, seven miles S. b. E. from it. The positions of these reefs are doubtful.

76. Haggerston's Island is high and rocky; the summit is in latitude 12° 1' 40", and longitude 143° 12'. It is situated at the S. S. W. extremity of a coral reef of nearly two miles in length; its northern side is furnished with some trees and a sandy beach. At the north end of the reef are two dry patches of sand and rocks. It is separated from the islands of Sir Everard Home's Group by a channel nearly three miles wide, quite free from danger; but in passing through it, the tide or current sets to the N. N. W. round the reef off Haggerston's Island.

77. Sir Everard Home's Group consists of six islands. The two south-westernmost are rocky, and one of them has two peaks upon it, which, from the southward, have the appearance of being upon the extremity of Cape Grenville. The south-easternmost has a hillock, or clump of trees, at its south-east extremity, in latitude 11° 57' 40", and longitude 143° 11'. The outer part of this group is bold to, and the islands may be approached, but the space within them appeared to be rocky. There is a passage between the Group and Cape Grenville. The merchant ship, *Lady Elliot*, in passing through it, found overfalls with eighteen fathoms.

Round Cape Grenville is Margaret Bay, fronted by Sanday Island, elevated and rocky, but not so high as Haggerston's Island, with good anchorage under its lee.

q is a covered reef, of about a mile in extent, in latitude 11° 55', five or six miles to the E. N. E. of Sir Everard Home's Group.

78. Sir Charles Hardy's Islands are high and rocky, and may be seen five or six leagues off. The summit is in lat. 11° 53' 20", and longitude 143° 23' 40".

r is a covered reef; and *s* a reef, with a dry sandy key upon it.

79. Cockburn Isles are rocky, and may be seen four leagues off.*

t and *u* are two reefs that were seen at a distance, and appeared to be detached from each other.

80. Bird Isles (the Lagoon Islands of Lieutenant Bligh) consist of three low bushy islets encompassed by a reef. The islands are at the outer verge of the reef, and may be passed within a quarter of a mile. The north-east island is in lat. 11° 44' 15", and long. 142° 58' 45".

81. McArthur's Isles consist of four low bushy islets, of which two are very small. They are encompassed by a reef of more than three miles long, and are separated from the Bird Isles by a channel three miles and a half wide.

82. Hannibal's Isles are three in number, low and covered with bushes. The easternmost is near

the extremity of the reef encircling the whole, and is in latitude 11° 34' 15", and longitude 142° 51' 20".

v and *w*; these shoals are separated by a safe channel of a mile and a quarter wide; *v* is circular, and has a dry sand at its north-west edge, and a rocky key at its south-west end; the channel between it and Hannibal's Islands is two miles and a half wide; *w* is nearly four miles long, and is entirely covered. The course between them is west; but by hauling close round the east end of *v*, a W. b. N. $\frac{1}{2}$ N. course will carry a vessel a quarter of a mile to leeward of the west end of *w*. The north-west extreme of *w* is three miles and a quarter S. 35° W. from Islet 1.

The Islets 1 and 2 are contained in a triangular shaped reef, of about a mile and three quarters in extent; they are covered with low trees. Islet 1 is in latitude 11° 28' 45"; No. 3 is a sandy islet crowned with bushes at the north-west end of a coral reef of about a mile and a half in length. Between the two latter reefs there appeared to be a channel of a mile wide in the direction of about N. W.; 4, 5 and 6, are sandy islets, covered with bushes, on small detached reefs, with apparently, a passage between each; 4 is in latitude 11° 22' 30"; 7, a small bushy island,† is separated from Cairncross Island by a channel two miles wide. The latter is a small woody island, situated at the north-west end of a coral reef, more than two miles long and one broad; the north-west point of the reef runs off with a sharp point for about a quarter of a mile from the islet. There is good anchorage under it, but the depth is fifteen fathoms, and the sea is rather heavy at times with the tide setting against the wind. The latitude of its centre is 11° 33' 30", and its long. 142° 50' 35".

8, 9 and 10, are low, woody islets; 8 is five miles to the eastward of Cairncross Island; 9 and 10 are to the northward of 8.

11 is also low and woody, but its position was not clearly ascertained.

83. Orfordness is a sandy projection of the coast under Puddingpan Hill (of Bligh), the shape of which, being flat topped, is very remarkable. The hill is in latitude 11° 18' 30", and longitude 142° 43' 35".

The country between Cape Grenville and Cape York is low and sandy, with but few sinuosities in its coast line: it is exposed to the trade wind, which often blows with great strength from S. E. and S. E. b. E.

84. Escape River, in 10° 57½' is an opening in the land of one mile in breadth, trending in for two or three miles, when it turns to the north, and is concealed from the view; the land on the north side of the entrance is probably an island, for an opening was observed in New Castle Bay, trending to the south, which may communicate with the river. The entrance is defended by a bar, on which the *Mermaid* was nearly lost. The deepest channel may probably be near the south head, which is rocky. The banks on the south side are wooded, and present an inviting aspect.

85. New Castle Bay is nine miles in extent by six deep; its shores are low, and apparently of a sandy character. At the bottom there is a considerable opening bearing W. $\frac{1}{2}$ N., eight miles and a half from Turtle Island.

Off the south head of the bay is Turtle Island, a small rocky islet on the east side of an extensive reef, in latitude 10° 54', and longitude 142° 38' 40". It is separated by a channel three miles wide from reef *x*, which has a dry sand at its north end, in la-

titude 10° 58', and longitude 142° 42'. It has also some dry rocks and a mangrove bush on the inner part of its south end.

Four miles to the north of *x* are two shoals, *y* and *z*, both of which are covered; *y* is two miles and a half long, and *z* three miles and a quarter; neither of them appeared to be a mile in width; the north-west end of *z*, when in a line with Mount Adolphus, bears N. 19° W.

Off the north head of New Castle Bay, which forms the south-east trend of the land off Cape York, is a group of high rocky islands—Albany Isles; and immediately off the point is a reef, which extends for about a mile. Half a mile without its edge, we had ten fathoms.

The Islets 12, 13 and 15, were only seen at a distance.

86. The Brothers, so called in Lieutenant Bligh's Chart, are two high rocks upon a reef.

87. Albany Isles contain six islands, of which one only is of large size; the easternmost has a small peak, and a reef extends for less than a quarter of a mile from it. The peak is in latitude 10° 43' 45", and longitude 142° 35' 5".

88. York Isles is a group about seven miles from the main land; the principal island, which is not more than two miles long, has a very conspicuous flat topped hill upon it. Mount Adolphus,* in latitude 10° 38' 20", and longitude 142° 36' 25", off the south-east end of this island are two rocky islets, the southernmost of which is more than a mile distant; the northern group of the York Isles are laid down from Captain Flinders.

89. Cape York, the northernmost land of New South Wales, has a conical hill half a mile within its extremity, the situation of which is in 10° 42' 40", S. and 142° 28' 50" E. of Greenwich. There is also an island close to the point, with a conical hill upon it, which has perhaps been hitherto taken for the Cape, from which it is separated by a shoal strait half a mile wide; the latitude of the summit is 10° 41' 35", and longitude 142° 28' 25". From this island a considerable shoal extends to the westward for six miles towards a peaked hill on the extremity of a point. In the centre of this shoal are some dry rocks.

At the distance of nearly five miles from the above island is the rocky Islet *a*, in latitude 10° 36' 50", and longitude 142° 27' 45"; it is of small size, and surrounded by deep water, and being easily seen from the strait between Cape York and the York Isles, serves to direct the course.

90. Possession Isles consist of nine or ten islets, of which 2 and 7 only are of large size, and neither of these are two miles long, they are also higher than the others; No. 1 is a small conical hill; 2 is hummocky; 3, 4 and 6, are very small; 5 makes with a hollow in its centre, like the seat of a saddle. The passage between 2 and the small Islets 3 and 4, is the best, there are six and seven fathoms water; but in passing this, it must be recollected that the tide sets towards the islands on the northern side.

* There is a Bay on the west side of Mount Adolphus, but it appeared shoal.—Roe M. S.

91. Endeavour Strait is on the south side of Prince of Wales's Islands: a shoal extends from Cape Cornwall (latitude 10° 45' 45", longitude 142° 8' 35") to the westward, and is probably connected with a strip of sand that stretches from Wallis's Isles to Shoal Cape. We crossed it with the Cape bearing about East, when the least depth was four fathoms; but on many parts there are not more than three fathoms. Variation 5° 38' W.

92. Prince of Wales's Islands are much intersected by straits and openings, that are very little known, there was an appearance of a good port, a little to the S. W. of Horned Hill, (lat. 10° 36' 35", longitude 142° 15'), which may probably communicate with Wolf's Bay; the strait to the south of Wednesday Island also offers a good port in the eastern entrance of some rocky islands, and without them is the rock *b*, with some sunken dangers near it.*

93. Wednesday Island, its north end, in latitude 10° 30' 10", and longitude 142° 15', may be approached close, but a considerable shoal stretches off its western side, the greater part of which is dry.

Off Hammond's Island is a high conspicuous rock, bearing W. $\frac{1}{2}$ S., and 5 miles and three quarters from the north end of Wednesday Island. Captain Flinders passed through the strait separating Wednesday Island from Hammond's Island, and had four, five, and six fathoms.

Abreast of the strait separating Good's Island from the latter is the reef *c*, on which are several dry rocks but abreast of it, and one mile and one quarter from it, is the reef *d*,† which is generally covered; the latter bears S. 75° W. three miles and a quarter from the rock off Hammond's Island, and about N. 45° W. two and a quarter miles from the opening between Good and Hammond's Islands, the marks for avoiding it are given in the Sailing Directions at p. 71.

94. Abreast of Wednesday, Hammond and Good's Islands is the north-west reef and extensive coral bank, many parts of which are dry; it is ten or eleven miles long; the channel between it and the islands is from one mile and three quarters to two miles and a quarter wide.

95. Booby Island (latitude of its centre, 10° 36', longitude 141° 52' 50") is a small rocky islet of scarcely a third of a mile in diameter; its south-west end has a shoal projecting from it for half a mile, but its other sides are bold to. In a N. 70° E. direction from it, at the distance of two miles and three quarters, is a sand bank with three fathoms, it was discovered by the ships *Claudine* and *Mary*, on their passage through Torres's Strait, when it was named Larpent's Bank.‡

* A few miles to the eastward of Cape Cornwall, within some islands, is an anchorage discovered by Captain Lihou, R. N. There is a bar on the west side of the islands, but to the eastward of them the passage is both wide and safe. This harbour in case of stress of weather, or to repair a ship, may be serviceable; but for a night's anchorage it is out of the way, and therefore of little consequence.

† *d* consists of three small detached patches, that extends farther off than is at first observed. There is also a narrow strip of rocks extending for a short distance off the north-east end of the reef off Hammond's Island.—Roe M. S.

‡ It is near the west end of a shoal of five miles in length, extending in an east and west direction, a few feet only below the surface of the water.—Roe M. S.

GENERAL POST OFFICE NOTIFICATION.

NUMEROUS instances having occurred in which the indulgence granted to the Senders of "Law Papers," "Accounts and Vouchers," and "Pamphlets" and "Printed Papers" at a rate of Postage equal to only One-third of Letter Postage, has been grossly abused, the Honorable the Vice President in Council has directed that henceforth the following Rules and Penalties shall be put in force in the place of the Rules now existing under these heads, and notice is accordingly given that they will be strictly enforced from the 1st proximo:

In order that all persons marking their papers with the words "Law Papers," "Accounts," "Vouchers," "Pamphlets," &c. with the view of passing them through the Post Office at the rates of Postage provided for such despatches, may be fully aware of the extent of their liabilities under these Rules,—Notice is hereby given, that any Letter, Note or Writing whatever, except the "Law Papers," "Accounts and Vouchers," &c. themselves, being enclosed in a cover so marked, will bring the Sender or Receiver, as the case may be, under the influence of these Rules, and in like manner any manuscript whatever or any other thing which may be enclosed in a Packet marked Pamphlet, Printed Papers, Newspapers, &c. or in any Packet delivered as such and at the Postage rates prescribed for such despatches, whether marked or not, will render the Sender or Receiver, as the case may be, liable to the Penalties.

Rule. "Law Papers, Accounts and Vouchers, superscribed and attested by the full signature of the Party sending them as being such, are received, for transmission by Dak, at the rate of Three Sicca Weight as one, i. e. any weight not exceeding Three Sicca Weight, at Single Letter Postage. For any weight above Three Sicca Weight, One-third of the Postage to be charged that would be leviable on a Letter of the same weight."

"Law Papers, Accounts, and Vouchers can only be transmitted by Dak when not exceeding Twenty-one Sicca Weight."

"Should covers said to contain the above mentioned description of Documents, be found to contain Letters, they will be charged with ten times Full Letter Postage agreeably to the weight of the Packet, and the Packet will be retained by the Deputy Post Master until the Postage be paid; moreover all Letters arriving at the Post Office for the Sender will be liable to be detained until the Postage under the Penalty, be liquidated."

"In cases where suspicion attaches to such covers, but where it cannot be satisfactorily ascertained that they actually do contain Letters, the Deputy Post Master at the despatching Office will note his suspicions on the outside of the envelope for the information of the Deputy Post Master at the Station for which the Packet is destined, who is empowered in such case to call upon the receiving party to attend either in person or by proxy, to open them in his presence, when, in the event of Letters being found within the cover, he will detain the Packet and its contents until the difference between the amount which may have been paid at the time of despatch, as for Law Papers, &c. only, and that to which under the Penalty, they would then be liable to, is adjusted. This applies equally should the suspicion originate with the Deputy Post Master at the Post Office of the Station where the Letter is to be delivered."

"Any thing in manuscript beyond the address on the cover of a Newspaper or other Printed Paper, will subject the parties concerned to the same Penalty and Conditions as those provided in the case of covers superscribed as containing Law Papers."

"Printed or Lithographed Circular Letters are liable to Full Letter Postage."

Regulation III. of 1830.

If Goods which have been passed for a specified Vessel, cannot, for whatever reason, be taken on board that Vessel,

and are fairly brought back to the Custom House for Re-land and subsequent Re-Export to the same Vessel, or to any other, or for regular Transshipment, every facility will, as usual, be afforded for such transactions.

By Order of the Board of Customs,

G. J. SIDDONS,

Collector of Customs.

Calcutta Custom-House, the 29th September, 1832.

CALCUTTA CUSTOMS.

SEA DEPARTMENT.—If Goods are Exported in full of Rowanahs then current; but are Re-landed, and not, subsequently Re-exported until after the Rowanahs are time-expired, then such Goods are considered as fresh Exports, are treated as if they had never been protected by Rowanahs, and Duty is taken, if any be leviable on such Goods under the Regulations. But upon request made on the face of Re-land Applications (not otherwise) parties will be furnished with Certificates giving particulars of Rowanahs, in order that they may be fully aware of the dates on which those Rowanahs will become time-expired; and such Certificates will have the force and validity of Rowanahs for any remaining period of the currency of the latter. If Exchange Rowanahs be required, they will be granted on application, with reference to the Provisions of Sections XXVI. and XXVII. of Regulation IX. of 1810. If Rowanahs shall have become time-expired between the date of Original Export, and that of Re-land, then no such Certificates can be granted; and the Goods in question will, if brought for Re-exportation, be treated as fresh Exports.

If Goods are Exported only in part, and not in full, of the quantities specified in Rowanahs, then those Rowanahs remain in the hands of the Parties concerned; and in the event, consequently, of such portions of Goods being Re-landed, no such Certificates as those above described will be issued.

By Order of the Board of Customs, dated 26th February, 1833.

G. J. SIDDONS, Collector.

28th February, 1833.

CALCUTTA CUSTOMS.

ALL Persons concerned are requested to take notice of the subjoined Orders, as published in the Government Gazette of April 1831, otherwise the delay and inconvenience which may be experienced will rest upon themselves.

Samples of the Goods must be produced at this Office, and the No. and Date of Sea Import Register must be stated if possible. But by order of the Board of Customs dated 2d April 1833, to obtain Maffee Rowanahs for Goods of such sorts as are produced in this country, (and then are liable to Transit Duty) as well as Imported by Sea, either Sea Import No. and Date must be given, or whole despatches must be produced for inspection at the Custom House;—otherwise Transit Duty will be charged.

All Applications for MAFFEE ROWANAHS, must communicate the following particulars.—1st. The general or common name of each variety, or quality of Goods.—2d. The quantity and value of each description.—3d. The sort of packages in which the Goods are contained, with the marks or directions upon them.—4th. The number of each sort of package.

G. J. SIDDONS, Collector.

8th April, 1833.

But Duplicate or Additional Copies of Documents of which the originals (stated to have been lost or mislaid) might eventually be used to the prejudice of Revenue, here or elsewhere, will on no account be granted.

G. J. SIDDONS, Collector.

**FORT WILLIAM,
FINANCIAL DEPARTMENT, 27TH OCT. 1834.**

NOTICE is hereby given, that from and after the 15th November next, the Board of Trade has been empowered and directed to receive Tenders for advances to be made on Goods and Merchandise consigned to England, covered by Bills of Exchange, to be drawn, payable to the Hon'ble Court of Directors of the East India Company in London, under the conditions and in the forms following:—

1st.—The parties to whom advances may be made shall agree, that the respective Consignments shall be delivered into the Warehouses of the East India Company, or into such other Warehouses as the Court of Directors may appoint, and that they shall be subject to the management of the Court of Directors, so long as the Court shall continue to manage the Goods of individuals.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of Government, an advance of 2-3ds of such ascertained value will be made.

3d.—For repayment of the advance, Bills of Exchange are to be drawn in triplicate, at six months sight, at the rate of 2s. 2d. per Calcutta Sicca Rupee.

4th.—The parties will be required to place in the hands of the Board of Trade Bills of Lading of the Consignment and Policies of Insurance effected thereon both in triplicate. The Bills of Lading must be drawn, deliverable to the East India Company, or indorsed to order of the East India Company. The Policies of Insurance must be effected

in the name and on behalf of the East India Company as the parties interested.

5th.—In case of default being made, either in acceptance, or payment of the Bills, the Court of Directors are to be authorized in the mode subsequently stated to sell the Goods for the purpose of repaying the Company the amount of the advances made thereon, together with the interest, should any have accrued; the Company, on the other hand, allowing discount when any part of the proceeds shall be realized before the Bills fall due.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills, and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision in case of the party, upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent, or in such case, should the Consignor prefer it, the Agency may be wholly withdrawn, and the settlement of either surplus or deficiency be made with the Consignor himself by the Government from whom he received the advance, at the rates of Exchange, at which the Company may at the time be drawing Bills upon India.

7.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with any charges which may be due to the Company thereon.

8.—The rate of Discount to be allowed by the Company shall not be less than £3 per Cent. per Annum.

9.—Parties receiving advances are to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Board of Trade, signifying their assent to all the foregoing Conditions, but more particularly for the purpose of expressly authorizing the Sale of the Goods, by the Company (without either notice to or concurrence of any person whomsoever) at any period, after default shall be made either in acceptance or payment of the Bills, also authorizing in such cases the repaying to the Company, the advances made either principal or interest, appointing the Agent in England, for each transaction, and signifying the wishes of the parties in the contingency referred to in the Sixth Article.

10.—Upon the acceptance of any tender of Goods in Security for advances to be made on the above terms, the Goods will be valued by the Export Warehouse-keeper, and for the sum that may be settled as to be advanced thereon, the Board will grant an Order on the General Treasury, payable at 40 days sight.

11.—The total sum to be advanced on Bills in the present season being limited in amount, the Board of Trade will use their discretion in giving a preference to tenders secured on Goods of a more valuable description, such as Silk and Indigo.

By Order of the Hon'ble the Vice President in Council,

H. T. PRINSEP, *Secy. to the Govt.*

TUESDAY, NOVEMBER 4, 1834.

FORT WILLIAM,

FINANCIAL DEPARTMENT, THE 27th Oct. 1834

NOTICE is hereby given, that from and after the 15th November next, the Board of Trade has been empowered and directed to receive Tenders for advances to be made on Goods and Merchandise consigned to England, covered by Bills of Exchange, to be drawn, payable to the Hon'ble Court of Directors of the East India Company in London, under the conditions and in the forms following:—

1st.—The parties to whom advances may be made shall agree, that the respective Consignments shall be delivered into the Warehouses of the East India Company, or into such other Warehouses as the Court of Directors may appoint, and that they shall be subject to the management of the Court of Directors, so long as the Court shall continue to manage the Goods of individuals.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of Government, an advance of 2-3ds of such ascertained value will be made.

3d.—For repayment of the advance, Bills of Exchange are to be drawn in triplicate, at six months sight, at the rate of 2s. 2d. per Calcutta Sicca Rupee.

4th.—The parties will be required to place in the hands of the Board of Trade Bills of Lading of the Consignment and Policies of Insurance effected thereon both in triplicate. The Bills of Lading must be drawn, deliverable to the East India Company, or indorsed to order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company as the parties interested.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors are to be authorized in the mode subsequently stated to sell the Goods for the purpose of repaying the Company the amount of the advances made thereon, together with the interest, should any have accrued; the Company, on the other hand, allowing discount when any part of the proceeds shall be realized before the Bills fall due.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills, and with whom they shall be authorized to transact generally all

business relating to such Goods. The Consignor shall be at liberty to make provision in case of the party, upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent, or in such case, should the Consignor prefer it, the Agency may be wholly withdrawn, and the settlement of either surplus or deficiency be made with the Consignor himself by the Government from whom he received the advance, at the rates of Exchange, at which the Company may at the time be drawing Bills upon India.

7.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with any charges which may be due to the Company thereon.

8.—The rate of Discount to be allowed by the Company shall not be less than £3 per Cent. per Annum.

9.—Parties receiving advances are to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Board of Trade, signifying their assent to all the foregoing Conditions, but more particularly for the purpose of expressly authorizing the Sale of the Goods, by the Company (without either notice to or concurrence of any person whomsoever) at any period, after default shall be made either in acceptance or payment of the Bills, also authorizing in such cases the repaying to the Company, the advances made either principal or interest, appointing the Agent in England, for each transaction, and signifying the wishes of the parties in the contingency referred to in the Sixth Article.

10.—Upon the acceptance of any tender of Goods in Security for advances to be made on the above terms, the Goods will be valued by the Export Warehouse-keeper, and for the sum that may be settled as to be advanced thereon, the Board will grant an Order on the General Treasury, payable at 40 days sight.

11.—The total sum to be advanced on Bills in the present season being limited in amount, the Board of Trade will use their discretion in giving a preference to tenders secured on Goods of a more valuable description, such as Silk and Indigo.

By Order of the Hon'ble the Vice President in Council,

H. T. PRINSEP, Secy. to the Govt.

EXTRACT from the Proceedings of His Excellency the Right Honorable the Governor General of India in Council in the Political Department dated Bangalore, the 9th of October, 1834.

Read a Despatch from the Hon'ble the Court of Directors bearing date the 17th of June 1834 on the subject of an enquiry into certain imputations of corruption against Mr. Moutunmud-dool Dowlah Resident at Lucknow.

Resolution—Resolved that Paragraphs 25 to 29 inclusive of that Despatch be published in the Official Gazette of the Presidency of Fort William Fort St George and Bombay for general information.

By Order of the Governor General of India in Council,

(Signed) W. H. MACNAGHTEN

Offg. Chief Secy

Para 25—Before we announce the determination with regard to Mr. Ricketts, to which we have been brought by a consideration of all the facts and circumstances above adverted to, we deem it proper to bring concisely into one point of view the several grounds on which that determination is founded, and which may be described as follows—

First—His conduct in procuring from Government the grant of a pension in favor of his Moonshiee, Golum Hoossun, on an allegation of poverty, which he knew to have been false.

Secondly—His sanctioning a positive fraud by countersigning Bills of the Darogah of the Residency Buildings for work which had never been executed.

Thirdly—His countenancing either an unjust gain on the part of certain Subscribers to the 5 per Cent. Loan opened in 1828, or a corrupt appropriation of the Public Money on the part of his Treasurer, by granting Loan Acknowledgements, dated long before the actual payment of the amount subscribed for.

These were overt acts brought home to Mr. Ricketts himself by the result of the investigation, to which are to be added,

Fourthly—The connivance, or almost equally culpable negligence, which enabled the Treasurer and others to carry on the extensive system of corruption developed in the course of the enquiry into the charges exhibited against Mr. Ricketts.

Fifthly—The presumptive evidence of his own corruption arising out of the several suspicious and unexplained facts adverted to in the preceding part of this despatch.

The first of these is, the mysterious transaction relative to the 12 Lacs of Rupees, of which Mr. Ricketts so earnestly, and at last successfully, obtained the remission in the late Minister Moutunmud-dool Dowlah's accounts with the King. A transaction which Mr. Ricketts had it in his power to explain, both the King and the Minister having referred to

his knowledge of it, but of which he evaded all explanation.

Secondly—The fact of his having trafficked to a very large amount in the sale of Gold Mohurs, a fact positively asserted by Goopur Mull who avowed himself to be the purchaser of a portion, and who specified purchases made by other Bankers, a testimony which we do not deem invalidated by his subsequent retraction.

Thirdly—Mr. Ricketts's refusal to stand the proposed test of enquiry relative to his simultaneous remittance of 400,000 Rupees by four Bills of Exchange on as many Houses of Agency at Calcutta.

Fourthly—The ascertained fact of his having remitted to the Presidency Summs of Money exceeding in the aggregate, the whole of his authorized allowances during the seven years of his residence at Lucknow, and

Fifthly—His withdrawing from the Presidency on his departure the Money due the Treasurer and the whole Establishment of Writers, Assistants, and others allowing the Treasurer also to take with him all the touch and Current Records of the Treasury, apparently with the design, and certainly with the effect of precluding or materially obstructing the means of investigating the many abuses and corruptions alleged to have been practised.

26 Mr. Ricketts having refused or evaded an explanation of some of these suspicious circumstances, and his explanation of the rest being altogether unsatisfactory, and having avoided and obstructed a full and sufficient investigation of the charges preferred against him, he cannot in our judgment be deemed entitled to the benefit of an acquittal for want of strictly legal evidence of his guilt. But even excluding from consideration, the presumptive evidence of his personal corruption however corroborated by the two circumstances of his unquestionable ability to disprove it if invalid, and of his refusal to do so, his conduct and proceedings as exhibited in the Public Records, and by the course and result of the investigation of the specific charges against him, are not only inconsistent with an upright and honest discharge of his public duties, but involve acts of positive delinquency, and would have exposed him to appropriate punishment in India if he had not evaded the regular course of justice by placing himself beyond the reach of the Local authorities.

27 To allow Mr. Ricketts to benefit by this both suspicious and culpable evasion of an enquiry which it might be expected that a Public Functionary conscious of his innocence would have been anxious to meet, would be adverse to the first principle of justice, and afford an example of the impunity of Official misconduct highly prejudicial to the interests of the Public Service. It becomes our duty therefore, to consider what means now remain to us of visiting conduct so culpable, with appropriate punishment, or at least of publicly testifying the sentiments with which we regard it.

28. Mr. Ricketts has removed himself beyond the reach of a Criminal prosecution in India, and the nature of the evidence against him would not enable us to maintain such a Prosecution here. But we have never accepted his resignation of our Service, and we now, as a punishment to the individual and an example to others, judge it expedient and necessary formally to dismiss Mr. Mordaunt Ricketts from the Service of the Company. We direct that this dismissal be promulgated in the most public manner for the information both of our servants and of the people of Oude, where he so unworthily represented the British Government.

The Bills of Lading must be drawn, deliverable to the East India Company, or indorsed to order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company as the parties interested.

5th.—In case of default being made, either in acceptance, or payment of the Bills, the Court of Directors are to be authorized in the mode subsequently stated to sell the Goods for the purpose of repaying the Company the amount of the advances made thereon, together with the interest, should any have accrued; the Company, on the other hand, allowing discount when any part of the proceeds shall be realized before the Bills fall due.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods subject to all the conditions agreed upon with the Company, on payment of the Bills, and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision in case of the party, upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent, or in such case, should the Consignor prefer it, the Agency may be wholly withdrawn, and the settlement of either surplus or deficiency be made with the Consignor himself by the Government from whom he received the advance, at the rates of Exchange, at which the Company may at the time be drawing Bills upon India.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them, before the Bills become due, upon the amount of such Bills (less discount) being paid, together with any charges which may be due to the Company thereon.

8th.—The rate of Discount to be allowed by the Company shall not be less than £3 per Cent. per Annum.

9th.—Parties receiving advances are to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Board of Trade, signifying their assent to all the foregoing Conditions, but more particularly for the purpose of expressly authorizing the Sale of the Goods, by the Company (without either notice to or concurrence of any person whomsoever) at any period, after default shall be made either in acceptance or payment of the Bills, also authorizing in such cases the repaying to the Company, the advances made either principal or interest, appointing the Agent in England, for each transaction, and signifying the wishes of the parties in the contingency referred to in the Sixth Article.

10th.—Upon the acceptance of any tender of Goods in Security for advances to be made on the above terms, the Goods will be valued by the Export Warehouse-keeper, and for the sum that may be settled as to be advanced thereon, the Board will grant an Order on the General Treasury, payable at 40 days sight.

11th.—The total sum to be advanced on Bills in the present season being limited in amount, the Board of Trade will use their discretion in giving a preference to tenders secured on Goods of a more valuable description, such as Silk and Indigo.

GENERAL POST OFFICE NOTIFICATION.

NUMEROUS instances having occurred in which the indulgence granted to the Senders of "Law Papers," "Accounts and Vouchers" and "Pamphlets" and "Printed Papers" at a rate of Postage equal to only One-third of Letter Postage, has been grossly abused, the Honorable the Vice President in Council has directed that henceforth the following Rules and Penalties shall be put in force in the place of the Rules now existing under these heads, and notice is accordingly given that they will be strictly enforced from the 1st proximo:

In order that all persons marking their papers with the words "Law Papers," "Accounts," "Vouchers," "Pamphlets," &c. with the view of passing them through the Post Office at the rates of Postage provided for such despatches, may be fully aware of the extent of their liabilities under these Rules,—Notice is hereby given, that any Letter, Note or Writing whatever, except the "Law Papers," "Accounts and Vouchers," &c. themselves, being enclosed in a cover so marked, will bring the Sender or Receiver, as the case may be, under the influence of these Rules, and in like manner any manuscript whatever or any other thing which may be enclosed in a Packet marked Pamphlet, Printed Papers, Newspapers, &c. or in any Packet delivered as such and at the Postage rates prescribed for such despatches, whether marked or not, will render the Sender or Receiver, as the case may be, liable to the Penalties.

Rule. "Law Papers, Accounts and Vouchers, superscribed and attested by the full signature of the Party sending them as being such, are received, for transmission by Dak, at the rate of Three Sicca Weight as one, i. e. any weight not exceeding Three Sicca Weight, at Single Letter Postage. For any weight above Three Sicca Weight, One-third of the Postage to be charged that would be leviable on a Letter of the same weight."

"Law Papers, Accounts, and Vouchers can only be transmitted by Dak when not exceeding Twenty-one Sicca Weight."

"Should covers said to contain the above mentioned description of Documents, be found to contain Letters, they will be charged with ten times Full Letter Postage agreeably to the weight of the Packet, and the Packet will be retained by the Deputy Post Master until the Postage be paid; moreover all Letters arriving at the Post Office for the Sender will be liable to be detained until the Postage under the Penalty, be liquidated."

"In cases where suspicion attaches to such covers, but where it cannot be satisfactorily ascertained that they actually do contain Letters, the Deputy Post Master at the despatching Office will note his suspicions on the outside of the envelope for the information of the Deputy Post Master at the Station for which the Packet is destined, who is empowered in such case to call upon the receiving party to attend either in person or by proxy, to open them in his presence, when, in the event of Letters being found within the cover, he will detain the Packet and its contents until the difference between the amount which may have been paid at the time of despatch, as for Law Papers, &c. only, and that to which under the Penalty, they would then be liable to, is adjusted. This applies equally should the suspicion originate with the Deputy Post Master at the Post Office of the Station where the Letter is to be delivered."

"Any thing in manuscript beyond the address on the cover of a Newspaper or other Printed Paper, will subject the parties concerned to the same Penalty and Conditions as those provided in the case of covers superscribed as containing Law Papers."

"Printed or Lithographed Circular Letters are liable to Full Letter Postage."

GENERAL POST OFFICE NOTIFICATION.

NUMEROUS instances having occurred in which the indulgence granted to the Senders of "Law Papers," "Accounts and Vouchers" and "Pamphlets" and "Printed Papers" at a rate of Postage equal to only One-third of Letter Postage, has been grossly abused, the Honorable the Vice President in Council has directed that henceforth the following Rules and Penalties shall be put in force in the place of the Rules now existing under these heads, and notice is accordingly given that they will be strictly enforced from the 1st proximo:

In order that all persons marking their papers with the words "Law Papers," "Accounts," "Vouchers," "Pamphlets," &c. with the view of passing them through the Post Office at the rates of Postage provided for such despatches, may be fully aware of the extent of their liabilities under these Rules,—Notice is hereby given, that any Letter, Note or Writing whatever, except the "Law Papers," "Accounts and Vouchers," &c. themselves, being enclosed in a cover so marked, will bring the Sender or Receiver, as the case may be, under the influence of these Rules, and in like manner any manuscript whatever or any other thing which may be enclosed in a Packet marked Pamphlet, Printed Papers, Newspapers, &c. or in any Packet delivered as such and at the Postage rates prescribed for such despatches, whether marked or not, will render the Sender or Receiver, as the case may be, liable to the Penalties.

Rule. "Law Papers, Accounts and Vouchers, superscribed and attested by the full signature of the Party sending them as being such, are received, for transmission by Dāk, at the rate of Three Sicca Weight as one, i. e. any weight not exceeding Three Sicca Weight, at Single Letter Postage. For any weight above Three Sicca Weight, One-third of the Postage to be charged that would be leviable on a Letter of the same weight."

"Law Papers, Accounts, and Vouchers can only be transmitted by Dāk when not exceeding Twenty-one Sicca Weight."

"Should covers said to contain the above mentioned description of Documents, be found to contain Letters, they will be charged with ten times Full Letter Postage agreeably to the weight of the Packet, and the Packet will be retained by the Deputy Post Master until the Postage be paid; moreover all Letters arriving at the Post Office for the Sender will be liable to be detained until the Postage under the Penalty, be liquidated."

"In cases where suspicion attaches to such covers, but where it cannot be satisfactorily ascertained that they actually do contain Letters, the Deputy Post Master at

"the despatching Office will note his suspicions on the outside of the envelope for the information of the Deputy Post Master at the Station for which the Packet is destined, who is empowered in such case to call upon the receiving party to attend either in person or by proxy, to open them in his presence, when, in the event of Letters being found within the cover, he will detain the Packet and its contents until the difference between the amount which may have been paid at the time of despatch, as for Law Papers, &c. only, and that to which under the Penalty, they would then be liable to, is adjusted. This applies equally should the suspicion originate with the Deputy Post Master at the Post Office of the Station where the Letter is to be delivered."

"Any thing in manuscript beyond the address on the cover of a Newspaper or other Printed Paper, will subject the parties concerned to the same Penalty and Conditions as those provided in the case of covers superscribed as containing Law Papers."

"Printed or Lithographed Circular Letters are liable to Full Letter Postage."
